FBI INVESTIGATES 14-YEAR-OLD, A FATHER AND A WIFE

By BILL WINGELL

A University of Pennsylvania faculty member whose 14-year-old son visited an East German youth camp was investigated by the FBI, according to a document newly-surfaced from the stolen files of the FBI's office in Media.

The purported FBI document shows that the bureau began a probe of Herbert Lansing Shore, 46, director of performing arts at the University of Pennsylvania's Annenberg School of Communications, as a result of a visit by his son, Norman Jon, to East Germany's "International Pioneer Republic" youth camp last July.

Written on FBI stationery and labeled "Secret — No Foreign Dissemination," the report on Shore was one of a dozen new files sent to this reporter by the Citizens Commission to Investigate the FBI, the group which raided the FBI's suburban Media office March 8.

The Justice Department concedes that at least 800 documents were stolen from the office. At this point, more than 40 have been distributed to the press and selected organizations and individuals by the Citizens Commission.

The document on Shore indicates that letters from him to his son at the East German camp and from his son to other persons were intercepted by U.S. military intelligence in West Germany.

Shore, according to the report, contacted his son "to tell subject of the physical and emotional well-being of 'Mom,' who presumably is the subject's mother."

In a telephone interview, Shore confirmed that he had written such a letter to his son. "When he left, his mother was ill and I wrote him to tell him his mother had recovered," Shore said.

The subject's father, according to an FBI report, contacted his son "to tell subject of the physical and emotional well being of 'Mom,' who presumably is the subject's mother."

"I think it's a sad commentary on this country that this kind of surveillance can take place, that there is this paranoia because a kid goes to camp in a socialist country," the father said. "Are they now going to investigate Mr. Nixon because of his interest in China?" he asked.

Shore said that in connection with his work in the theater he had "visited East Germany and other countries and everybody at school knows about it." He said that between 1965 and 1969 he was on the staff of the University of East Africa in Tanzania, first as a consultant and then as a professor of theater.

He said his son attended the East German youth camp twice, the first visit occurring while the family was living in Tanzania. It was "an international camp with kids from all over the world taking part in all kinds of sports and cultural activities," Shore said.

"We have always believed in a total free exchange of ideas and experience," Shore said. He described himself as a socialist "philosophically," but said he belonged to no political party. He has resigned his post at the University of Pennsylvania effective in June, he said, in order to "return to my own artistic work."

The FBI document on Shore named the university's personnel records officer, Mrs. Effie Thompson — with the word "protect" appearing after her name — as the source of a report that "there is an extensive file" on the staff member. "Will review the personnel file of Herbert Lansing Shore, report same and recommend action," the FBI file noted.

In a telephone interview, Mrs. Thompson denied being an FBI source and insisted that her office does not maintain personal data files on university personnel. "This is ridiculous — there's not a word of truth in it," Mrs. Thompson said. "I have nothing to do with the FBI."

As for the bureau's "case" on the son — listed as FBI file number 105-17903 — the FBI document noted that it "should be closed inasmuch as the individual is only 24-years-old."

Another document outlines FBI procedures for what is termed the "development of selected contacts" — in other words, informants — among persons in industry planning to visit Sino-Soviet bloc countries or to attend international meetings where individuals from such countries might be present.

If an agent finds such a person has "potential for possible development as an informant under the DESECO program," the document states, he should proceed according to Pages 33-35 in the FBI's "Manual of Instructions."

The new files also contained a document revealing FBI surveillance of the Women's International League for Peace and Freedom (WILPF), which has its national office in Philadelphia.

Addressed to FBI director J. Edgar Hoover from "SAC (special agent in charge), Philadelphia," the file was entitled "Communist Infiltration of the Women's International League for Peace and

Freedom." It was dated September 24, 1965.

Advising that "PH 27-S, who has furnished reliable information in the past," had told of the WILPF's upcoming 50th anniversary meeting, the document went on to note that the organization's newsletter "reflected that Martin Luther King Jr. will address the 50th anniversary banquet ..." The file also cited a list of nominees for the group's national board, "together with biographical data."

Mrs. Katharine Camp, 52, president of WILPF's U.S. section and one of those included in the file list, was told about the document by this reporter. "This kind of super-sleuthing would be ludicrous were it not so serious a matter," Mrs. Camp responded.

"Of course the WILPF would be considered a threat to a society operating by the cloak and dagger because we are for an open society, for freedom," Mrs. Camp stressed. "We recognize that civil liberties are in a precarious condition these days because we don't have a genuinely civil society. They are eroded in a warfare state."

Additional files dealing with

Swarthmore College were made available to this reporter in the past week by the Swarthmore student newspaper, The Phoenix, which had received them directly from the Citizens Commission.

The documents told of surveillance of Swarthmore students, including Cindy Bertrand, 21-year-old daughter of Charles E. Bertrand, president of the Reading Company, operator of the Reading Railroad.

"Subject is a member of Labor Committee in Philadelphia, Pa., and is allegedly a student at Swarthmore College," the file on Miss Bertrand noted. "Will review Swarthmore records for all background re subject" and "will conduct credit and criminal checks," the document continued.

In a telephone interview, Miss Bertrand confirmed that she had been a member of the labor committee but said she now was a member of a splinter group, the Socialist Labor Committee.

She said she "really wasn't surprised" about the FBI's investigation of her, noting that "the labor committee has been framed in the past by the Philadelphia police department, which led me to believe that members of our organization were under surveillance either by the Civil Disobedience Squad or the FBI."

Miss Bertrand described her political activity as "working for a socialist, reindustrialization at capitalist expense — which means expropriation of the defense-aerospace sector of the economy and utilization of that capital for productive use, such as mass transit, schools, hospitals."

Railroads would also be improved under that program, the student noted, and they would then "be run by society as a whole."

And what does her father, a railroad president, think of her proposals? she was asked. "He's conservative politically and doesn't agree with my politics," Miss Bertrand replied. "I haven't convinced him yet."

Told that this reporter had not been able to reach her father for comment, Miss Bertrand remarked: "He's pretty pissed off. He's not talking to anybody!" +

Boy's E. German Trip Brings Probe by FBI

By Bill Wingell

Newsday Special Correspondent

Philadelphia—A University of Pennsylvania faculty member whose 14-year-old son visited an East German youth camp was investigated by the FBI, according to a newly surfaced document allegedly stolen from the FBI's office in Media, Pa.

Two other documents in the latest packet received from the citizens commission also reflect the FBI's concern over persons having contact with the Soviet bloc. The files show that the bureau investigated two suburban Philadelphia couples—one for having visited a Soviet consular office and the other for having invited an official of the Czechoslovakian Academy of Science to the U.S. for a lecture tour. Another document outlines FBI procedures for what termed the "development of selected contacts"—in other words, informants.

Stolen Data Shows FBI Kept Tabs on Boy, 14

By JARED STOUT
Newhouse News Service

The Army intercepted a Pennsylvania father's message to his 14-year-old son at an East German youth camp and gave the information to the State Department and the FBI, according to stolen FBI documents.

The use of Army facilities to intercept messages that are then relayed to the State Department and the FBI has been suspected but heretofore undocumented.

The interception by an undisclosed means was done by the U.S. Army operations and research detachment at Frankfurt, West Germany, in July 1970, while the boy was at a camp in Eberswalde, near Altenhop, East Germany.

Four Interceptions

According to an FBI document stamped "Secret—No Foreign Dissemination," the message told the boy "of the physical and emotional well-being of 'mom,' who presumably is the subject's mother." It was one of four interceptions by the Army unit, but there was no indication whether the message was written or spoken.

The other interceptions involved the boy's communications with persons who had helped him get into the camp. All were attributed to source "PH T-L, another government agency which conducts intelligence operations." It was later identified as the Army unit in Frankfurt.

In one intercept, the youth was reported by the FBI to have said:

"He had learned a great deal about socialism when he previously attended the camp and after his next experience at the camp, he would be able to return to the United States with ideas and to inform the children about the camp."

The FBI began an investigation of the boy, apparently not knowing his age. When it was

learned he was 14, the inquiry was dropped in favor of one into the background of his father who had traveled in West Germany.

Father Was Professor...

A "Mrs. E. Thompson" in the personnel records section of the University of Pennsylvania was listed by the report of Special Agent Charles Silverthorn as a source of data on the father, who was employed by the university as a professor.

The Citizens Commission to Investigate the FBI, which made the documents available yesterday, said they brought to over 50 the number of documents mailed to several newspapers and members of Congress. They were stolen March 8 from the FBI's Media, Pa., office.

Other disclosures in the documents included the presence of FBI agents in Argentina; an investigation of a Quaker who asked a Czech national to visit his Pennsylvania home, and inquiries into persons working with international organizations such as the United Nations.

The documents also showed FBI efforts to recruit as informants businessmen traveling abroad. A cautionary note was included to get FBI headquarters approval before approaching those in the news media, entertainment, or state and local government.

Industrial Queries

The recruitment was aimed at individuals traveling to or through Sino-Soviet countries or to any international meeting outside the United States. It also called on industrial security officers at defense plants to supply the names of those intending to travel.

Another document called for investigation of any student, professor or scientist who visits Russia for more than a month. The purpose is "to identify them and determine whether any of them have been approached for recruitment by Soviet intelligence services."

"Utmost care must be exercised," the memorandum continued, "to prevent any embarrassment to the bureau and possibly jeopardize the bureau's program in countering Soviet intelligence services recruitment of students."

"The motives of the bureau in investigating American students, professors and scientists must not be construed as infringements of the American educational system and the pursuit of intellectual freedom," the memorandum said.

#80-1227

This is in reference to my letter of May 4, 1971, dealing with a communication from [REDACTED] of Philadelphia, Pennsylvania, to the Department containing false allegations against Special Agents of the FBI. [REDACTED] alleged his client, [REDACTED] had been subjected to unlawful wiretapping, constant and harassing surveillance, and an unlawful intrusion into his living quarters. Special Agents of our Philadelphia Office categorically denied each and every allegation and the Special Agent in Charge of our Philadelphia Office so advised [REDACTED] in a letter dated April 30, 1971.

Attached is a copy of a second letter from [REDACTED] to the Special Agent in Charge of our Philadelphia Office dated May 4, 1971, in which he alleged [REDACTED]'s wife had been told by the FBI that her phone was tapped. [REDACTED] requested the tap be removed at once and the tapes and transcriptions of telephone calls be furnished him. This most recent allegation is completely false there never having been an electronic surveillance conducted on [REDACTED]'s telephone. The Special Agents who interviewed [REDACTED]'s wife denied having informed her that her telephone was tapped. U

MAILED 3

In view of his continued unfounded allegations obviously made in an attempt to discredit Special Agents of the FBI and since the Special Agent in Charge of our Philadelphia Office has already set the record straight in his April 30, 1971, letter to [REDACTED], no response is intended by the FBI to [REDACTED]'s current inquiry.

Enclosed are the original and one copy of a letter dated 5/4/71, addressed to me, from [redacted] an attorney with the Law Firm of Wolf, Block, Schorr and Solis-Cohen, Philadelphia, Pa., which is self-explanatory. 4

The Bureau's attention is directed to page 3, paragraph 2 of the enclosure to re Boston airtel, which is quoted as follows: 4

[redacted] said that ACLU is following up on movement harassment of FBI in Philadelphia area instructing students as well as others of their rights, what types of surveillance to expect and how to protect against it. He suggested an article in the Newsletter advocating such organizations in different cities. The next cover letter of a packet suggests this also. The points to explore in the Newsletter is that most surveillances are carried on by the local "Red Squads" not the FBI, that Hoover is not the issue but rather the FBI, and that titillation and shock are not proper responses but rather mobilizing against surveillance is. 4

As pointed out in rePHlet, [redacted] has been associated with the activities of the American Civil Liberties Union in the past. It is entirely possible that [redacted]'s harassing tactics against the FBI is the activity [redacted]

Dear Mr. Jamieson:

I have your letter of April 30, 1971, in which you state that you have caused to be made a "thorough inquiry" into the allegations of [redacted] and in which you deny the allegations of improper conduct on behalf of the FBI. As you know, I have written to the Attorney General requesting a thorough and impartial investigation without resort to the FBI.

As you further know, [redacted], his wife and a friend were interviewed directly by members of the press concerning their contacts with the FBI. I suggest that the FBI agents involved also subject themselves to examination by the press so that the public may have the benefit of their version of what happened. I further suggest that you make available both to me and to the press the results of your "thorough inquiry".

[redacted] has reported to me that the overt acts of harassment have stopped. However, the question of wire tapping and electronic surveillance remains open. As you know, [redacted] has said that FBI agent [redacted] admitted that the FBI was tapping the [redacted] phone. There were other admissions to the same effect. Accordingly, we make two requests: (1) that the tap be removed at once, and

gained as a result of the taps be supplied to us.

May we have your prompt response.

The serials pertaining to the UKA, JDL and Bell Telephone Company of Pennsylvania, are presumed by Philadelphia after a review of stolen items and Philadelphia files to be the documents to which the newspaper article refers. Philadelphia is not able, at this time, to identify the fourth serial mentioned in the article relating to a SDS demonstration in May of 1968. This fourth article is apparently not on the stolen list. U

15-154 The UKA serial, PH 157-5713 - 1, and the JDL serial, PH 100-52260 - 4, have been reported to the Bureau previously as stolen and the Bureau has been furnished copies thereof. The Bell Telephone Company memo, PH 80-1177 - 67, was not previously known to have been stolen and therefore, six copies of same are enclosed. U 26-49

Also enclosed for the Bureau are the original and two copies of an additional ammended page for the stolen list pertaining to PH 80-1177 - 67. U

PH serials 67-30217 - 1 and 67-30217 - 2, previously reported to have been stolen, have been located at Philadelphia, and are in the file and therefore, are not stolen. U

40% Stolen FBI Files Involve Politics, 1% Organized Crime

By THOMAS J. MADDEN

Of The Inquirer Staff

Forty percent of the investigative files stolen from the FBI office in Media involve political activities, compared to one percent involving organized crime, a group claiming credit for the theft reported Friday.

The percentage figures come from the Citizens' Commission to Investigate the FBI in a cover letter accompanying the latest release of allegedly stolen documents. They were received by certain Philadelphia newsmen in the mail Friday morning.

BREAKDOWN OF FILES

The letter said that about 30 percent of the office's files were manuals, routine forms and similar procedural materials. The remainder was as

follows:

40 percent—Political, surveillance and other investigations of political activity. Of the cases, two were "right-wing," 10 concerned immigrants and more than 200 were on "left or liberal groups."

25 percent—Bank robberies.
20 percent—Murder, rape and interstate theft.

7 percent—Draft resistance, including refusal to submit to military induction.

7 percent—Leaving the military without permission.

1 percent—Organized crime, mostly involving gambling.

The documents released with the letter included the Police Department's Civil Disobedience Unit's surveillance of a demonstration protesting re-

search on chemical weapons which was sponsored by the Students for a Democratic Society in May 1968.

KLAN MEETING

Other documents involved an informant's report on a meeting of Ku Klux Klan members last November in Chichester Township and information concerning the Jewish Defense League supplied by an official of the Anti-Defamation League of B'nai B'rith.

In the cover letter the commission said it "liberated" all the files of the Media office on March 8 and "among the many organizations on whom files were kept, only two were right-wing."

On a memorandum dated Oct. 21, 1970, Samuel L. Gaber, regional director of the ADL

was reported to have "advised" a special agent of the identity of two persons "active in JDL affairs."

These persons were identified as Russel Kelner, a teacher at Olney High School and a resident of Mount Airy; Benjamin Pomerantz, an attorney with office and residence in Center City, and Irving Shiman, of Havertown.

Gaber said he was "taken aback" upon learning his name was in the FBI files. He added he did not recall talking to an FBI agent about the JDL.

'NOT SURPRISED'

However, he said, the league has a "policy of cooperating with all other legitimate organizations. I would imagine if a legitimate request is made by the FBI or the Philadelphia Public Library, we would try to be of assistance."

Kelner said he was ~~not~~

prised the league gave information to the FBI.

"That's the way the Anti-Defamation League works. They've been gathering information on us for years," Kelner said.

The packet mailed by the commission also contained a memorandum regarding arrangements made through the Bell Telephone Co. of Pennsylvania for maintaining alphabetical telephone listings in the FBI Philadelphia office.

The listings were said to reflect all individuals in the area who have telephone service "regardless of published or non-published telephones."

[redacted] was advised of the identities of the interviewing Agents as SA [redacted] and SA [redacted] of the Federal Bureau of Investigation. [redacted]

was advised that he would be questioned in regard to a fire in the Air Force ROTC classroom, Barton Hall, Cornell University, Ithaca, New York, March 17, 1971. [redacted] was

furnished with an "Interrogation; Advice of Rights" form, which he read, stated he understood, but declined to sign.

[redacted] stated that he would not mind talking to the Agents. [redacted] furnished the following information: u

[redacted] advised that he was at Barton Hall, Cornell University some time after supper, March 16, 1971, observing Safety Division Firing Range in the basement of Barton Hall. He stated that he wandered upstairs to the main floor and looked at the bulletin board for the Air Force ROTC offices. He further advised that he spoke with two Air Force ROTC officers regarding the Medical Corps and the medical aspects of the Air Force. He stated that he spoke approximately five to ten minutes and then left the building. [redacted] stated that there were people playing basketball on the main floor of Barton Hall, but he did not know their identities or the exact number. [redacted]

[redacted] further stated that he did not go into the towers of Barton Hall at any time. He advised he knows nothing of the fire which occurred in the early morning hours of March 17, 1971, at Barton Hall. u

[redacted] stated that he was arrested for petty larceny during April, 1971, by Ithaca, New York Police Department for theft of a bicycle. He further advised that he was stopped and possibly fingerprinted during February, 1971, while at Ann Arbor, Michigan, attending a Peace Conference. Dear Mr. Mitchell:

I am enclosing a letter dated April 15,
which I had delivered yesterday to Joe Jamison, agent
in charge of the Federal Bureau of Investigation office
in Philadelphia.

As indicated in the last paragraph of the
enclosed letter, I request that you promptly investigate
this matter in an impartial and diligent manner without
resort to the FBI and to prosecute any government employees
found to have violated the law.

Mr. Joe Jamison
Federal Bureau of Investigation
Department of Justice
Widener Building
Philadelphia, Pennsylvania

Dear Mr. Jamison:

I am counsel for [REDACTED]

[REDACTED] is
associated with The Philadelphia Resistance which, as you
know, is an organization which opposes the war and the draft.

My client has related to me facts which indicate
that the Federal Bureau of Investigation has been and is
continuing to harass and threaten him and his wife in an
effort to coerce [REDACTED] into becoming an informer
for the FBI in connection with the alleged burglary of records
at the Media office of the Bureau.

Among the threats referred to are that he will be
subpoenaed to testify before a federal grand jury and will
be prosecuted for perjury thereafter. Threats of bodily harm
have also been implied.

[REDACTED] has related incidents of unlawful
entry into his living quarters by the FBI without a warrant,
unlawful wire tapping, and constant and harassing surveillance
of himself and his friends. He reports that the FBI has told
him that "we'll get you one way or another" unless he cooperates
by turning informer.

[redacted] has no duty whatsoever to "cooperate" with the FBI, - which your agents have notably failed to mention. Nevertheless, he volunteered to speak to government agents in the presence of his counsel and The American Civil Liberties Union, although he had already informed the FBI that he has no information relating to the Media episode. This offer has been rejected.

On behalf of my client, I do hereby request that you order an immediate halt to the activities of the FBI described in this letter. I am writing to the Attorney General requesting that he promptly investigate this matter in an impartial and diligent manner without resort to the FBI, and to prosecute any government employees found to have violated the law.

GENERAL INVESTIGATIVE DIVISION

Attached pertains to information developed by our Boston Office to the effect that "Resist", the anti-establishment militant group which has acted as a distribution center in the past for copies of stolen FBI documents is at this time preparing another mailing. Source indicates five additional FBI informers will be disclosed in documents.

In view of "Resist's" past activities as a distributor and since recent mailings have contained original documents, we are discussing the possibility of obtaining a search warrant with the Internal Security Department.

Investigation is continuing to identify the xerox copiers used to reproduce stolen documents and other documents released by the "Citizens' Commission to Investigate the FBI." u

The FBI Laboratory comparison examination of those documents with known Model 660 xerox copier samples submitted to date has been negative. As of 4/29/71, the Laboratory has conducted 4,276 such examinations. u

Investigation relative to the obtaining known Model 660 xerox copier samples and the Laboratory reports pertaining thereto are of no evidentiary value until or unless an identification is made. Therefore, negative results are not being included in the details of this report. u

The Xerox Corporation has made available computer print-out data listing whereabouts of Xerox Model 660 copiers. The Xerox Corporation has also made available a customer list for Xerox Model 2400 copiers in the Philadelphia area. This material constitutes a "trade secret" and must be returned to the Xerox Corporation. Accordingly, information relating to this matter will not be reported in the details of this report. It is noted that the page furnished by DUVAK, described as an airtel dated 9/15/70 to Director, FBI, from SAC, Philadelphia (105-18114) (P), is a Xerox copy of serial #5 in that file consisting of two pages. One copy of this airtel was designated for Philadelphia. The copy remains in the file. *u*

The item supplied by DUVAK and described as a machine copy of optional form OF-10 addressed to Director, FBI, from SAC, Philadelphia (105-18114) (C) with six obliterated words, appears to be a rough draft of Philadelphia letter to Bureau dated 1/29/71, captioned, "GEORGE DUVAK, JR.; [REDACTED] etc.," mentioned heretofore (no Bureau file number). C. FBI LABORATORY AND LATENT FINGERPRINT
SECTION - EXAMINATION OF EVIDENCE

There follows a summary of results of pertinent FBI Laboratory and Latent Fingerprint examinations set out in this report. u

Photocopies of miscellaneous documents concerning [redacted] were not sufficiently legible for comparison with the questioned hand printing on Q48 and Q49. u

b6
b7C

Handwritten specimens of the following examined however, since meaningful comparison cannot be made between handwriting and hand printing, it was not possible to determine if the hand printing on Q48 and Q49 was or was not prepared by these individuals: u

D.C

It was determined that the hand printing on Q48 and Q49 was not prepared by [redacted] u

It was not possible to determine whether Q48 and Q49 were or were not prepared by [redacted] or [redacted] u

Nothing of significance was found in comparison of handwriting and hand printing of [redacted] with Q48 and Q49. u

Photocopies of 22 documents taken from [redacted] and [redacted] following arrest by New Jersey State Police, 11/9/70, on a charge of carrying concealed weapons, not clear enough for comparison purposes. Nothing of significance noted in comparison of writing of [redacted] with Q48 and Q49. Suggested that efforts be made to obtain additional handwriting and hand printing from [redacted] u

Typewriting impressions on document beginning, "Philadelphia War Tax Resistance can help YOU," K2102, determined to be same style as impressions on copies of press release of "Citizens' Commission to Investigate the FBI." U

OLIVETTI Underwood copies appears to have been used in preparation some of questioned documents. U

Laboratory concluded that copies of two pages of American Civil Liberties Union documents (K2099) are copies of IBM Selectric Scribe style of type which is same style type used in preparation of some questioned documents. Copies not sufficiently legible for a detailed typewriter comparison. U

It was also determined that typewriter impressions taken from a Smith-Carona typewriter located in the office of a Quaker Action Group and from an IBM typewriter maintained in office of Womens Strike for Peace, both located at 20 South 12th Street, were not used to prepare questioned specimens. U

The typewriter impressions in the "CAPBOM" case were not prepared by the typewriters used in instant case. U

Latent fingerprints and palm prints remain unidentified. U

Q141 Copy of two-page airtel dated 11/4/70, beginning "Increased campus disorders involving..." and ending on page 2 "...1/31/69, same caption."

Q142 Copy of Memorandum dated 2/9/71, beginning "The following information was furnished to..." ending "...name before the public."

Result of examination:

It was determined that Q131 through Q142 are all 3M paper and are additional copies of similar copies previously submitted in this case. No indented writing of value was noted on Q131 through Q142.

Q131 appears to have been prepared on an Olivetti Underwood copier. Q134 is a copy prepared on a Xerox Model 660 copier. Q132, Q133, and Q135 through Q142 appear to be Xerox copies prepared on a copier other than the Model 660.

The obliterated material at the top of Q131 contains the hand printed words "ORIGINAL - KEEP."

Q136 through Q138 are being forwarded to the Resident Agency, Rochester, New York, with a copy of the Buffalo report. The remaining submitted evidence is temporarily retained. Photographs have been made.

The Kc1 and Kc2 photocopies are not clear enough for comparison purposes. From such comparisons as could be made with the handwriting and hand printing on Q208 and Q209 in EASTCON, nothing of significance was noted.

For the reason previously stated, comparison of Kc1 and Kc2 with Q48 and Q49 in MEDBURG was also inconclusive. Nothing of significance was noted in comparing the writing of [redacted] with Q48 and Q49. As the possibility [redacted] may have prepared Q48 and Q49 could not be eliminated, it is suggested efforts be made to obtain additional specimens of this individual's handwriting and hand printing.

Result of examination:

The typewriter impressions on K2102 are the same style of type as the typewriter impressions on copies of the press releases of the Citizens' Commission to Investigate the FBI, beginning "On the night of March 8, 1971....," previously submitted in this case. However, the questioned and known copies are not sufficiently legible for a detailed typewriter comparison to be made in an effort to determine whether the questioned and known typewriting was prepared on the same typewriter.

It was determined that the typewriter impressions on K2101 were not prepared with the questioned typewriters used to prepare specimens previously submitted in this case.

The copies of K2101 were not associated with the characteristic markings of questioned copies of Xerox Model 660 previously submitted.

[redacted] advised that he is currently employed at the Key Realty Company in Media, Pa. He stated he frequents the Media area and has numerous associates residing there. He noted that he and his family at one time resided in Media. [redacted] stated that he could furnish no information regarding the burglary of the Media FBI Office and said that he has heard nothing with regard to this burglary from his associates. (1)

[redacted] advised that she works as a janitress from 6 p.m. to 1 a.m. She stated she walks past the front door of the Media FBI Office every day between 5 and 5:30 p.m. and again from 1:30 to 2 a.m. She said she saw nothing out of the ordinary on March 8, or March 9, 1971. She recalled that it was a cold windy day and that she was in a hurry to get home on the morning of the ninth. She said that several weeks prior to March 9, 1971, she saw a young Negro male standing at the doorway to the County building where the FBI Office is located. She said she could not describe this individual and would be unable to recognize him if she saw him again. It was her recollection that it was about 1:45 a.m. when she saw the Negro male. Suspect photographs were exhibited to [redacted] without effecting an identification. (4)

FEDERAL BUREAU OF INVESTIGATION

[redacted] was recontacted concerning any activity within the vicinity of the County Apartments during the period March 8 - 9, 1971. u b6 b7C

[redacted] stated that he arrived home from work at approximately 11:30 p.m. on March 8, 1971, and heard voices in the street to the rear of his second floor apartment. At approximately 11:45 p.m. he received a phone call from the private ambulance service for which he works parttime and was requested to go to work. u

He returned home at approximately 3 a.m. and the individuals were still making noise in the rear of the apartment. He watched TV until the shows went off the air and went to bed. [redacted] approximated retiring at 5 a.m. and advised that the individuals were still making noise in the rear street. u

[redacted] advised that it sounded to him that there were four or five people in the rear; however, he was only able to see two of them. One was a white male, long light brown hair, with no facial hair or marks. The other individual had long dark hair with an olive green Army jacket, but he could not be sure if it was a male or a female. u

Later in the afternoon [redacted] stated that he was unable to see the individuals below the neck line since they were behind a truck and subsequently gave this divergent description: u

One white male, long hair, cowboy hat and one white male or female, long dark hair with headband. u

[redacted] was emphatic that none of these individuals wore glasses and advised that the individuals were approximately 75 yards behind his apartment. u

He further related that he was not certain he would be able to recognize the persons he observed in the parking area behind his apartment in the early morning hours of March 9, 1971.U

He stated he could not describe the car parked behind the truck in the parking area, but occasionally someone would open the door and the dome light would go on. u

[redacted] restated that he returned from work around 11:30 p.m. to 12 midnight, March 8, 1971. He entered his apartment and immediately turned on his television set. After viewing television for some time, he heard the noise of voices in the back of his residence and went to the window to look out. He estimated the time to be 1 a.m. He observed two white males who were visible from the neck up, apparently standing behind a truck belonging to a local business now. He stated he heard what appeared to be several other persons in the back of his apartment but could not see them although there was an outside light on one of the buildings. u

[redacted] stated he was called by the answering service from the Delaware Ambulance Service at about 1:30 a.m., and left his residence shortly thereafter. He returned home around 4:30 a.m. to 5 a.m., and upon entering his apartment, he again heard voices in the back of his apartment. He opened the back door to look out and observed red lights on a car in the parking lot. He stated these lights appeared to be tail lights. He stated he heard someone say, "There's someone up there." He related he did not see anyone at this time and thereafter, closed the door and went to bed.

advised her these lights were always on and that she only re-
calls them as being on on the night of March 8, 1971. U

[redacted] stated that she also recalls having ob-
served a green (described as faded green) panel truck driving
through the alley by her apartment building on two or three
occasions prior to the burglary of the Media FBI Office. She
advised she could not recall having observed this truck parked
in the area of the FBI Office. U

[redacted] stated that she has a number of friends
in the Media area, particularly Front Street, and she would
make inquiry among her friends in an effort to develop any
information concerning the Media burglary. U

[redacted] furnished the following telephone number
where [redacted] could be contacted: [redacted] Philadelphia. U

On April 26, 1971, [redacted] was contacted at the
above telephone number and he stated that he would voluntarily
come to the Philadelphia Office of the FBI for an interview. U D.C.

On April 26, 1971, [redacted] who furnished his
home address as [redacted] advised
that on the night of March 8, 1971, he visited with [redacted]
[redacted] Media, Pa., until approxi-
mately 12 or 12:30 a.m. He stated he does not recall the exact
time that he left but remembers that he left shortly after
hearing the results of the fight between CASSIUS CLAY and JOE
FRAZIER that night. [redacted] advised that his car was parked
on Orange Street which is in the opposite direction from the
Media Resident Agency and therefore he did not observe anything
in the vicinity of the resident agency as he departed. U

III. Draft Board and Industrial Break-Ins
Eastern United States and Break-In
FBI Resident Agency, Rochester, N.Y.

Survey under above caption discloses points of similarity between above break-ins and burglary of FBI Resident Agency, Media, Pa. Suspects, subjects, and individuals claiming responsibility for break-ins set out. 4

DRAFT BOARD AND INDUSTRIAL BREAK-INS
EASTERN UNITED STATES AND BREAK - IN
FBI RESIDENT AGENCY, ROCHESTER, N. Y.

A review of draft board and industrial break-ins in the eastern United States and the break-in at the FBI Resident Agency at Rochester, N. Y., disclosed break-ins at 52 different Selective Service locations including Selective Service Headquarters at Wilmington, Del., and Providence, R. I. Also broken into were the offices of the Dow Chemical Company and the General Electric Company, Washington, D. C. A common denominator in most of the break-ins was a scattering, destruction, and/or theft of files and records. u

This review generally disclosed the following main points of similarity to the burglary of the FBI, Media Resident Agency: u

- (1) theft of records
- (2) forced entry into office
- (3) no evidence of forced entry into the building proper
- (4) use of burglar tools
- (5) use of surveillances beforehand
- (6) anonymous telephone calls to press media the morning immediately following the break-ins
- (7) letters mailed by the group responsible for the break-in to individuals whose records were stolen
- (8) suspects associated with East Coast Conspiracy to Save Lives

The following is a list of draft board break-ins which have a modus operandi similar to the break-in at the FBI Resident Agency at Media: u

- (1) break-ins at four separate locations in the Boston, Mass., area, November 7 - 8, 1969 u
- (2) break-in at three different locations in Delaware on June 17 - 18, 1970 u
- (3) Break-in at the draft board, New Haven, Conn., July 9 - 10, 1970; and break-ins at draft board locations at Elizabeth and Union City, N. J., December 17 - 18, 1970 u

Of particularly close similarity among the above-listed break-ins and the break-in at the FBI Resident Agency at Media were the facts that records were stolen, anonymous telephone calls were made to the press media the morning immediately following the burglary, and letters were sent to the Selective Service registrants whose identities would have been disclosed through the stolen records. u

Telephone calls were also made to the press media the morning immediately following the draft board break-ins at the following locations: u

Madison, Wisconsin - January 2-3, 1970

Minneapolis, Minnesota - February 28 - March 1, 1970

Providence, R.I. - June 14-15, 1971

The morning after the break-in of the draft board offices at New Haven, Conn., on July 9-10, 1970, the clerks of the local board attempted to enter the rear door of the draft board in their usual fashion with their key, but the key could not unlock the door. u

Photographs of the Selective Service Director were stolen at break-ins of the draft boards at Dover, Delaware and Georgetown, Delaware on June 17-18, 1970. u

At the burglary of the Selective Service Headquarters office at Wilmington, Delaware on June 17-18, 1970, a list of Selective Service personnel, Washington, D.C., was stolen. u

The telephones were disconnected at the draft board break-in at Silver Springs, Md., on May 2, 1969. The telephones and a clock were ripped from the connections at the break-in of the Dover, Delaware draft board office on June 17-18, 1970. Telephones were stolen from a National Guard Armory during the time of a burglary of the draft board offices at Georgetown, Delaware on June 17-18, 1970. u

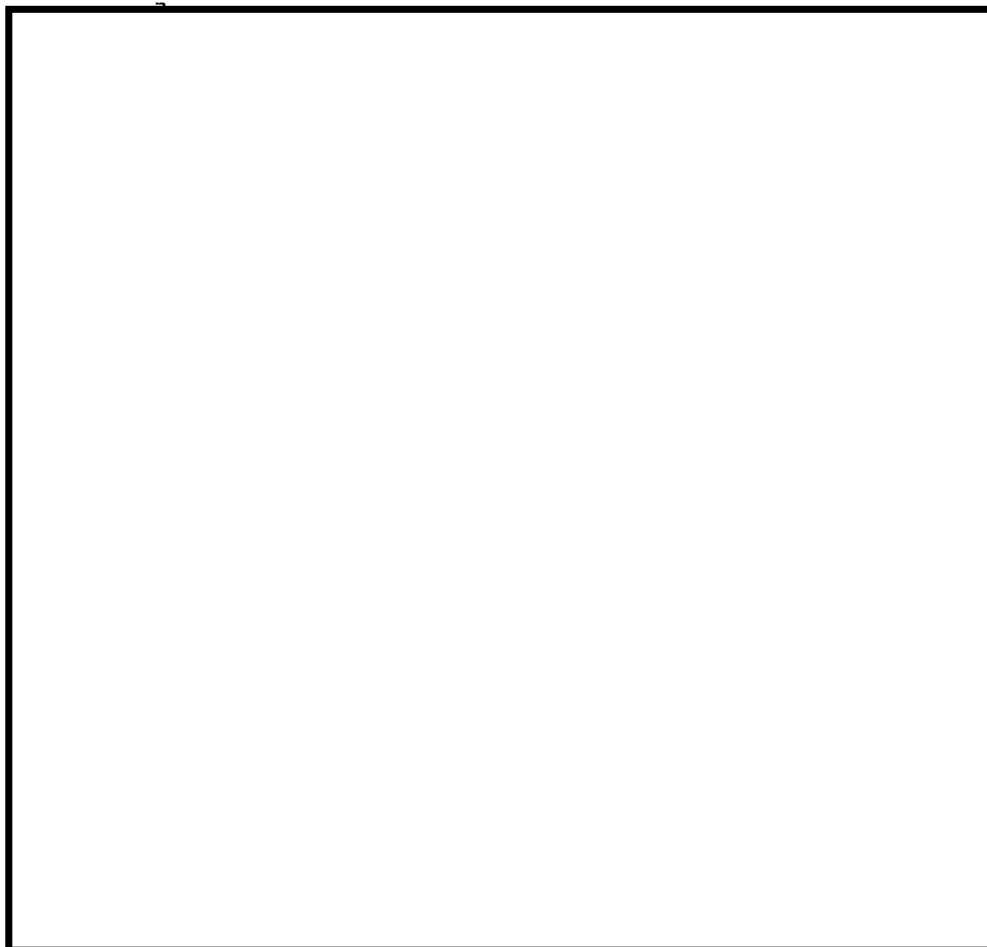

118

There was no damage to or destruction of Selective Services records in addition to those stolen in the following draft board break-ins: U

1. North Broad Street location, Philadelphia, Pa., May 19, 1970
2. Willmar, Minnesota, October 23-24, 1970
3. Worthington, Minnesota, October 28-29, 1970
4. Wabash, Minnesota, July 11, 1970

The prime suspect developed in the break-in at the Worthington, Minnesota draft office was [redacted] a member of the so-called Minnesota 8. Selective Service records stolen at Worthington and Willmar, Minnesota were found in and around Minnesota lakes the day following the night of the burglary. The following list of individuals comprised the group known as the Minnesota 8: U

b6
b7C

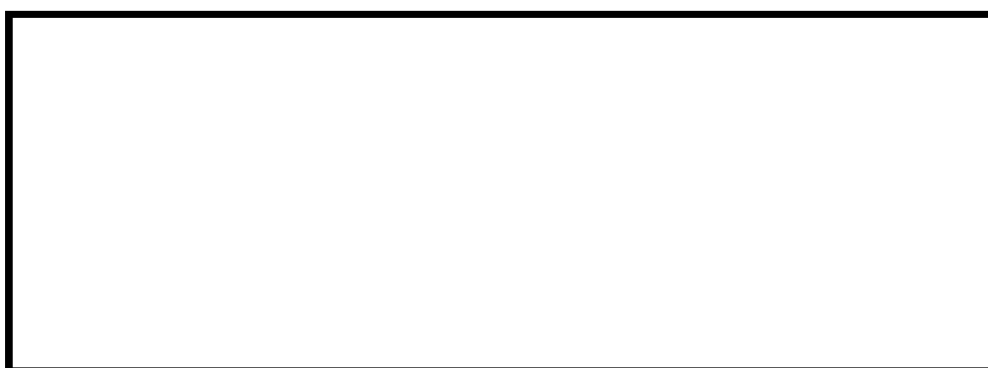

The only physical damage perpetrated at the Wabash, Minnesota draft board on July 11, 1970 was the painting of slogans with spray paint on one wall, among which was the "Minnesota Conspiracy to Save Lives." A significant number of records stolen in the Wabash, Minnesota break-in were recovered in the Mississippi River at St. Paul, Minn., a few days after the break-in. The night of the Wabash, Minn. break-in, the eight of the aforesaid listed individuals known as the Minnesota 8, were arrested in the process of removing Selective Service records from three Minnesota offices at Little Falls, Winona and Alexandria, Minn. U

107

Also a common denominator to a majority of the draft board break-ins was the factor that most of the offices broken into were situated in private office buildings, most of which had no guard or alarm system. Additionally the offices themselves burglarized had no special alarms or security equipment.

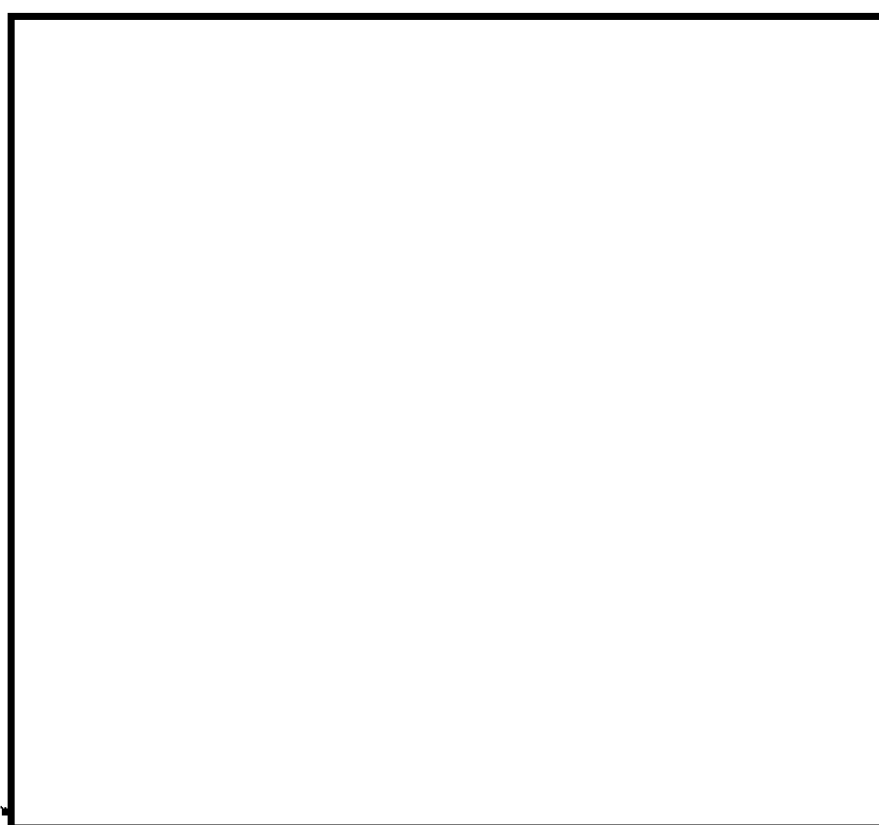

The following groups of individuals have publicly admitted draft board or industrial break-ins:

1. Following Providence, R.I., draft board break-in on December 24, 1970.

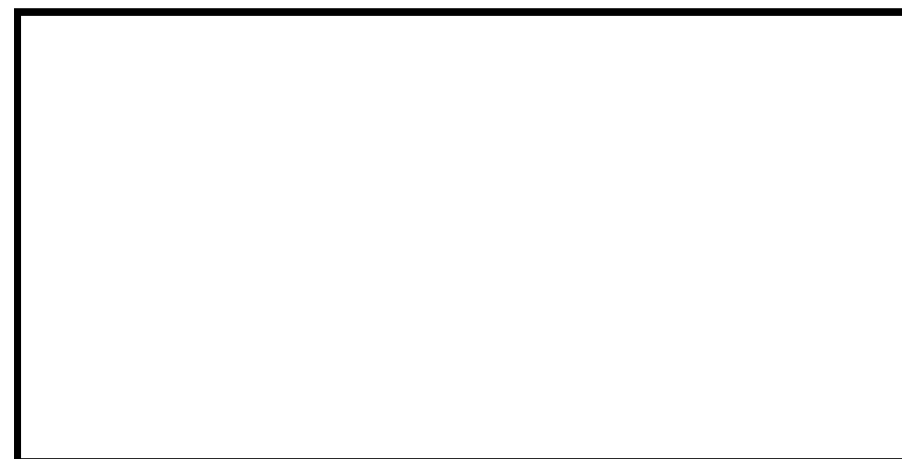

b6

2. Following New Haven draft board break-in on July 10, 1970.

3. Following draft board break-ins at St. Paul and Minneapolis, Minn., on March 1, 1970. (On radio broadcast)

9. Following Boston area draft board break-ins November 7-8, 1969.

A group of approximately 75 individuals appeared at the southwest corner of reflecting pool, Lincoln Memorial, Washington, D.C., informing FBI Agents that the group was known as the Boston Eight was among the 75 people wishing to turn themselves in to the FBI.

[REDACTED] acted as spokesman for the group and handed forth a statement of the Boston Eight stating that everything the FBI needed to know was contained in the leaflet. The Boston Eight did not come forward from the group. From leaflets passed out, the following individuals are known as the Boston Eight:

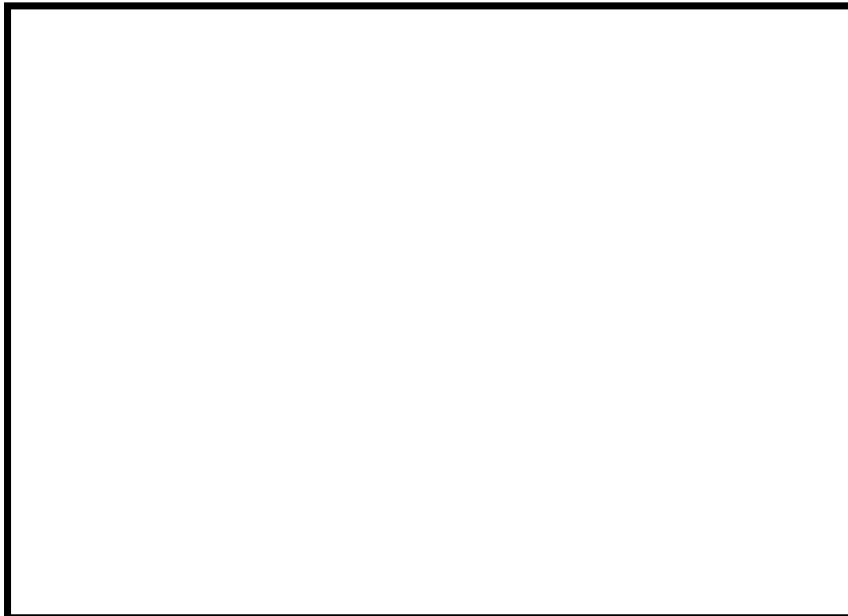

[REDACTED]

10. Following the draft board break-ins at Elizabeth, N.J., and Union City, N.J., on December 18-19, 1970, the group who referred to themselves as the Hoover Vacuum Conspiracy which claimed responsibility for those two break-ins was to have surfaced at the Queen of Angels Roman Catholic Church auditorium in Newark, N.J. The group, however, did not surface but investigation determined that a vehicle registered to [REDACTED] was present at the meeting which was held at the church. (u)

11. Following draft board Panel B, New York City, N.Y., on July 2, 1969.

[REDACTED]

113

b6
b7C

The group who claimed responsibility for the February 7, 1970 draft board break-ins at Philadelphia, Pa., called themselves the East Coast Conspiracy to Save Lives. The group claiming responsibility for the draft board break-ins at Philadelphia and Lansdowne, Pa., on May 19, 1970 refer to themselves as "We The People." The group which claimed responsibility for the November 7, 1969 break-in at Indianapolis, Ind., was the Beaver 55. The group claiming responsibility for the New York City area draft board break-ins in August, 1969 was the New York 8. The group claiming responsibility for the break-in at the General Electric Company offices in Washington, D.C. on February 7, 1970 also refer to themselves as the East Coast Conspiracy to Save Lives.

With the exception of the break-ins at Providence, R.I., December 24, 1970, St. Paul and Minneapolis, Minn., on March 1, 1970 and New York City on July 2, 1969, where individuals who have surfaced have no known connection with the East Coast Conspiracy to Save Lives or individuals associated with the group, the individuals who surfaced subsequent to the other break-ins listed above were either members or associated with individuals who comprised the East Coast Conspiracy to Save Lives.

In addition, investigation in other break-ins had indicated that the following break-ins perpetrated by individuals associated with the East Coast Conspiracy to Save Lives:

1. Destruction of Selective Service records at Baltimore, Md., July 27, 1967.
2. Destruction of Selective Service records at Catonsville, Md., May 17, 1968.
3. Destruction of records at the Dow Chemical Company, Washington, D.C., March 22, 1969.

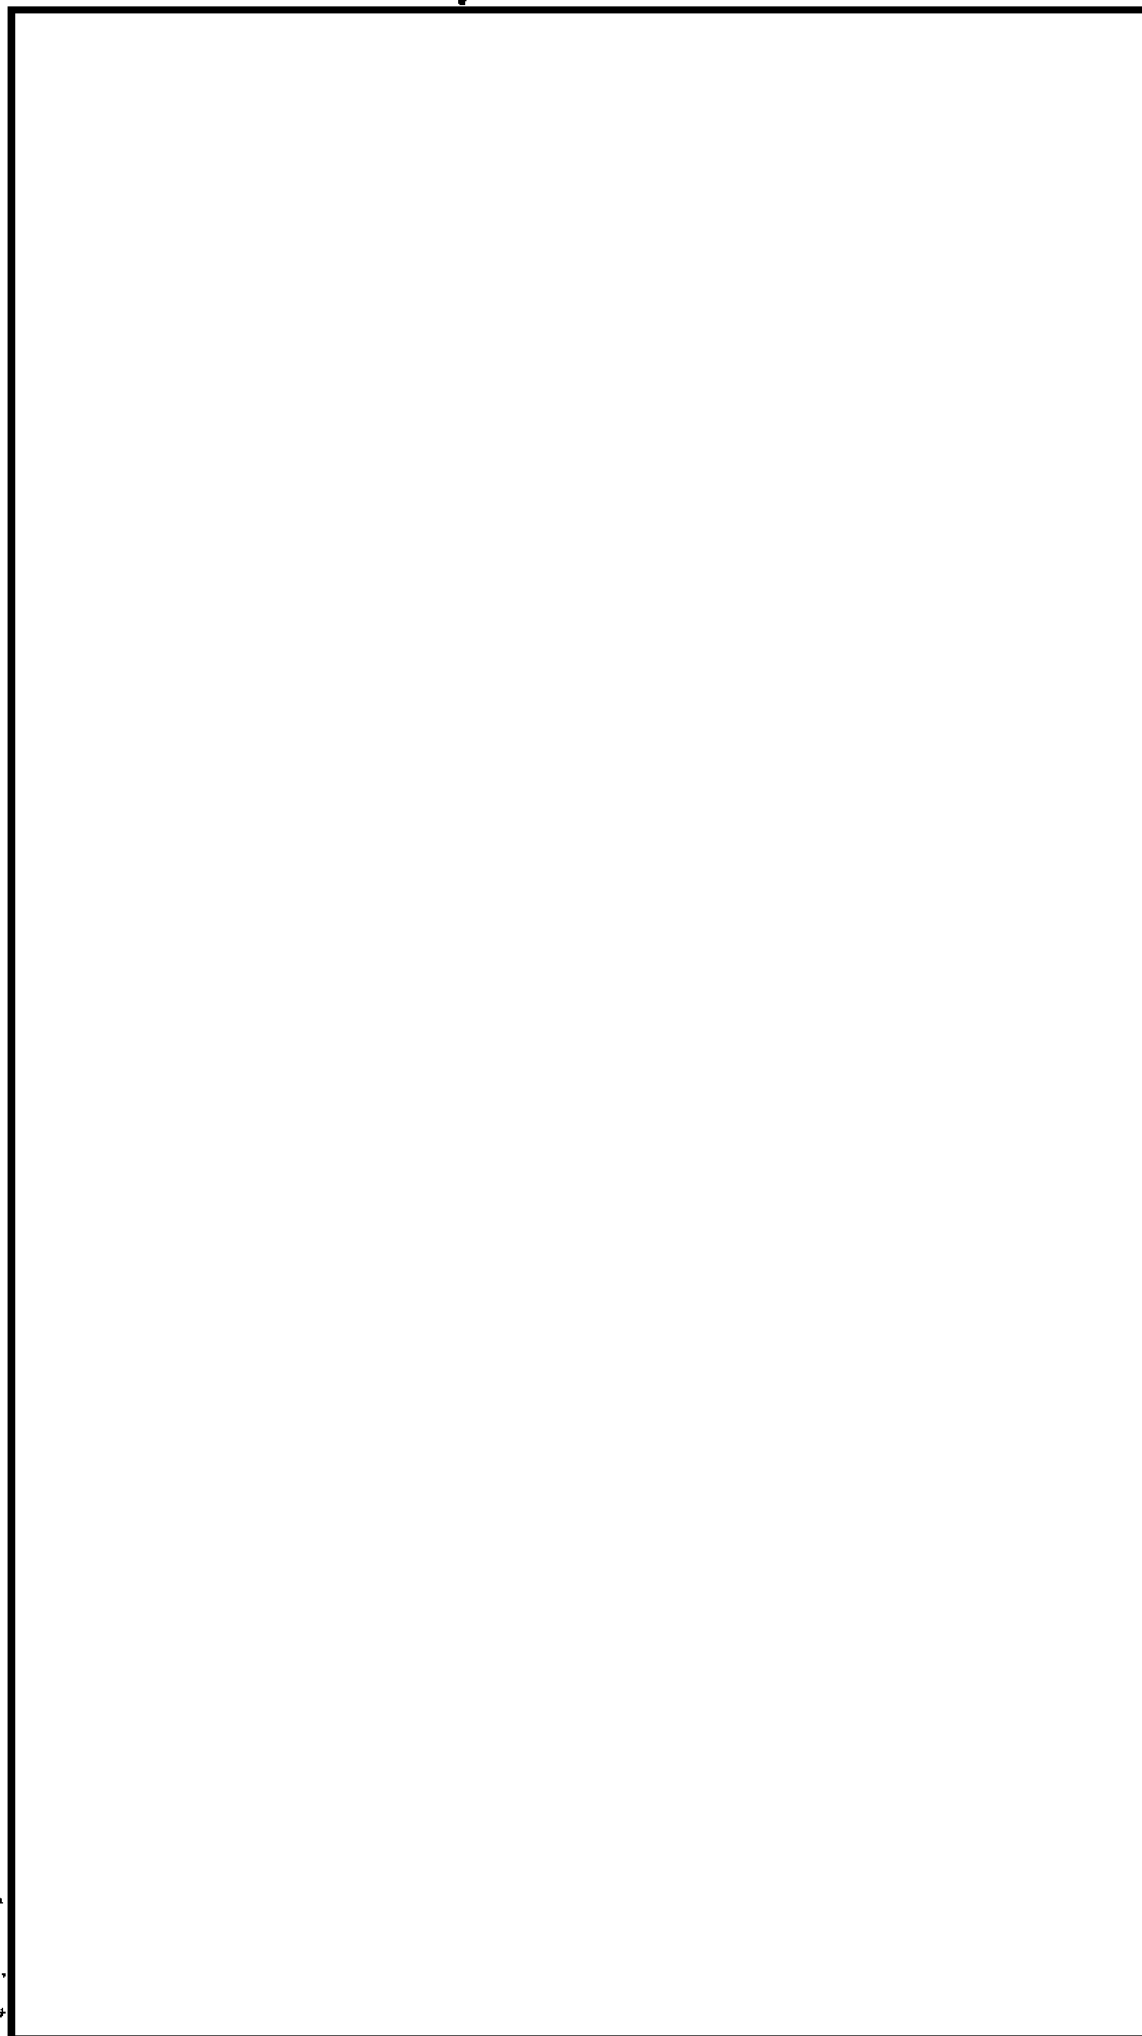

4. Break-in at draft board offices at Dover, Georgetown and Wilmington, Delaware, June 17-18, 1970.

5. Break-in at the FBI Resident Agency, U.S. Attorney's Office; and draft boards at Rochester, N.J., on September 6, 1970.

6. Planned break-in of draft offices at Bridgeton, N.J., September 2, 1970.

In addition to those individuals who have surfaced and are listed beforehand, the following individuals have been developed as subject in the Philadelphia draft board break-ins on February 7, 1970:

PHILIP FRANCIS BERRIGAN

Three members of the group known as the Beaver 55, who claim responsibility for mutilation of Selective Service records Indianapolis, Ind., on November 1, 1969 were found to be residing at [redacted] on November 28, 1969 with [redacted] (u)

It is further noted that after the only clean draft board break-in in the Philadelphia area at 3701 North Broad Street, Philadelphia, Pa., on May 19-20, 1970, where no damage was done other than Selective Service records stolen, telephone calls were received by local press media the morning immediately after the break-in advising of this break-in, as well as the break-in of the Lansdowne, Pa., Draft Board the same night. Additionally, registrants from the 3701 North Broad Street Draft Board, whose records were stolen, received letters from the group claiming responsibility for the break-ins. (u)

Please refer to my letter dated April 3, 1971, which related information about seven individuals, all of whom had previously furnished information of value to the FBI, receiving letters from the Citizens Commission to Investigate the FBI. u

On April 22, 1971, a newspaper article appeared in the "Lancaster Independent Press," Lancaster, Pennsylvania, identifying FBI sources and informants taken from stolen FBI documents. While other newspapers have identified FBI sources and informants, the article in the "Lancaster Independent Press" is the only known instance wherein the article specifically spelled out the purpose of the Citizens Commission to Investigate the FBI to prohibit the sources and informants from further cooperation with the FBI. In this instance, the "Lancaster Independent Press" is serving as an arm of the Citizens Commission to Investigate the FBI to intimidate through public disclosure, our informants and sources, and thereby attempt to prevent or deter them from further cooperation with the FBI. [REDACTED] is the editor of this newspaper and he and his wife, [REDACTED] have been active in the antidraft and new left activities in Lancaster and Philadelphia, Pennsylvania, areas. u

Enclosed for the Bureau are the original and one copy of a newspaper article which appeared in the 4/22/71 edition of the "Lancaster Independent Press," Lancaster, Pa. U

This article concerns itself with setting out a list of "informers" appearing in stolen FBI documents. Philadelphia has been advised previously by the Bureau that based on the legislative history of T18, Section 1510, USC, it appears that the sole purpose of the act is to protect informants and witnesses against intimidation or injury by third parties with the purpose of preventing or discouraging the informants or witnesses from supplying or communicating information to a Federal investigator. U

T18, Section 1510, USC, provides in part that:

"whoever wilfully endeavors by means of bribery, misinterpretation, intimidation, or force or threats thereof to obstruct, delay or prevent the communication of information relating to a violation of any criminal statute of the United States by any person to a criminal investigator...shall be fined not more than \$5,000, or imprisoned not more than 5 years or both. Division Six is requested to present this matter to the Justice Department as a possible violation of T18, Section 1510, USC, in view of the obvious intention on the part of the distributors to intimidate informants and/or sources of information and thereby effectively prevent or deter them from communicating pertinent information in criminal and/or security matters to the FBI. Ex-Dean of Student Affairs at Lincoln University Named as FBI Informer

NEW YORK (LNS) — While the FBI plans to close some of its offices and J. Edgar Hoover fumes, the Citizens Commission to Investigate the FBI continues to send out copies of the 1,000 files they stole from the Media, Pa. FBI office several weeks ago. One recent packet sent out contained documents with the names of FBI informants.

On March 30 the Citizen's Commission sent a letter to the informants. It told them that their names were going to be made public in about a week and suggested that they talk with the people whom they had been giving information about. The letter stated, "We regret that this action was necessary but these are troubled times, and the struggle for freedom and justice in this society can never succeed if people continue to betray their brothers and sisters."

The following is a list of informers taken from the FBI documents: Marjorie Webb, secretary to the registrar; Judy G. Feiy, chief switchboard operator; Mr. Henry Peirsol, security officer — all from Swarthmore College, Swarthmore, Pa.; Mr. Charles Grier, postmaster, U.S. Post Office, Swarthmore, Pa.; Robert Bunker, assistant chief, Rutgers Campus Patrol, Rutgers College; Donald K. Check, dean of student affairs, Lincoln University, Oxford, Pa. (who left the college two years ago — LIP); Mr. Daniel McGronigle, cashier, Southeast National Bank, 4th and Market St., Chester, Pa.; Mr. Allan Ferguson,

Re Boston teletype to the Director and Philadelphia
 May 6, 1971, 7:20 AM regarding documents mailed from Resist
 to [redacted] Record American, Boston, Mass. U

Enclosed herewith are five packets of Xerox copies
 of copies of documents taken from the Media RA. These packets
 were turned over this date to SA [redacted] by [redacted]
 [redacted] of Rich, May and Bilodeau, 1 State Street, Boston,
 Mass. This firm represents the Record American-Sunday Advertiser.

Also enclosed herewith are four envelopes addressed
 to [redacted] Boston Globe, Boston, Mass., which were made
 available to SA [redacted] by [redacted], on
 the afternoon of May 5, 1971. Envelope No. 1 bears the postmark
 Philadelphia, Pennsylvania, and date March 9, 1971 PM;
 envelope No. 2 bears the postmark Wilmington, Delaware, and
 date April 22 PM; envelope No. 3 bears the postmark Philadelphia,
 Pennsylvania and date April 9 AM; envelope No. 4 bears the post
 mark Philadelphia, Pennsylvania, and date March 22 PM. U 7-1620

For the information of the FBI Laboratory, [redacted]
 [redacted] was recontacted at the request of SAC MOORE by SA MAY 19 1971
 [redacted] on May 6, 1971, and asked if he was aware which of
 the above envelopes contained the original document on which
 [redacted] wrote an article in the Boston Globe April 27, 1971.
 (Bureau is in receipt of the article and original document has
 been previously furnished to the FBI Laboratory for examination.)
 [redacted] stated that he assumed that the original document
 was mailed in the envelope postmarked April 22 Wilmington,
 Delaware. He makes this assumption based on the fact that
 [redacted] told him he received the document on April 26 and wrote

REQUESTS OF FBI LABORATORY

Latent Fingerprint Section

Will process enclosed packets and envelopes for latent prints. It should be noted that [] stated that all four envelopes had been handled by many people at the Boston Globe. [] stated that the packets had been handled by people in his firm in addition to those with the Record-American. It is suggested that any latent prints be compared with those considered prime suspects by Philadelphia in this investigation. U

Document Section

Will examine all the material submitted in an effort to identify any of the subjects in this case. Will carefully scrutinize the cover letter to each packet for the purpose of determining the identity of any of the subjects in this case. Results of examination should be forwarded to Philadelphia and Boston. Neither [] nor [] have requested that these documents be returned to them. Therefore, after examination, they should be returned to the Boston Office to be maintained as evidence in this case. U

[] stated he was not making available the envelope that these packets were mailed in or the cover letter which was addressed to [] until such time as he receives written authority to do so from [] M

Dear Sirs:

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED

DATE 12-2-77 BY 6380/1/6/1

I am writing this letter as the advisor of a group of Explorer Scouts here in Moscow, Idaho. This is a group of boys (ages 15-17) who are interested in camping, conservation, and generally the out-of-doors.

Next Summer, we would like very much to go to the Soviet Union, to travel through your country and meet our counterparts in the U.S.S.R., if possible. What I would like to know is "How do we go about this?"

What we would like to do is to be put in touch with a Komsomol group of similar interest to ours, and to meet Soviet youths on a people to people basis, if we possibly could. We speak Russian fairly well, and are rather knowledgeable on your country.

I personally think that such contacts are by far the best way to promote peace and understanding between our peoples, for as has been said "It is hard to shoot a friend."

We do not, however, have a great deal of money. We have sufficient to get over there and travel around, and are going to have a new four-wheel drive vehicle at our disposal while we are in Europe. We do not have the kind of money required to travel like bourgeois tourists, and besides, that is no way for the boys to meet other boys like themselves.

We would really like, if possible, to arrange to visit a Pioneer camp, or one of the Komsomol facilities. Also, if possible, the boys and I are experienced motion picture photographers, having shot film before for the American Broadcasting Company. If it would be allowed, we would like to film such places to share our experiences with a broader segment of American youth.

That summarizes pretty much what we want to do. What I would like to know is--How do we do it? I assume it is possible, for it must be possible to travel in the Soviet Union on other than a guided tour for fat tourists.

We would like to drive in ourselves, camping if possible, visit as many of our counterparts as possible, entering at the Rumanian border, and exiting to Finland.

Any help you can give in telling me how we can arrange to do something like this would be greatly appreciated. I can write in Russian to the U.S.S.R. easily enough. I only write this letter in English because I don't have a Russian typewriter.

Thanks in advance for your help. I look forward to hearing from you.

Sincerely,

b6

RACIAL MATTERS
BUDED: 12/4/70

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 12-2-82 BY 638 VRT/ER

Increased campus disorders involving black students pose a definite threat to the Nation's stability and security and indicate need for increase in both quality and quantity of intelligence information on Black Student Unions (BSU) and similar groups which are targets for influence and control by violence-prone Black Panther Party (BPP) and other extremists. The distribution of the BPP newspaper on college campuses and speakers of the BPP and other black extremist groups on campuses clearly indicate that campuses are targets of extremists. Advance information on disorders and violence is of prime importance. We must target informants and sources to develop information regarding these groups on a continuing basis to fulfill our responsibilities and to develop such coverage where none exists. ✓

Effective immediately, all BSUs and similar organizations organized to project the demands of black students, which are not presently under investigation, are to be subjects of discreet, preliminary inquiries, limited to established sources and carefully conducted to avoid criticism, to determine the size, aims, purposes, activities, leadership, key activists, and extremist

interest or influence in these groups. Open individual cases on officers and key activists in each group to determine background and if their activities warrant active investigation. Submit results of preliminary inquiries in form suitable for dissemination with recommendations regarding active investigations of organization, its leaders, and key activists. These investigations to be conducted in accordance with instructions in Section 87D of the Manual of Instructions regarding investigations of organizations connected with institutions of learning. U

Each office submit by airtel to reach Bureau by 12/4/70, a list of BSUs and similar groups by name and school which are or will be subjects of preliminary inquiries. This program will include junior colleges and two-year colleges as well as four-year colleges. In connection with this program, there is a need for increased source coverage and we must develop network of discreet quality sources in a position to furnish required information. Bear in mind that absence of information regarding these groups in any area might be the fault of inadequate source coverage and efforts should be undertaken immediately to improve this coverage. U

A prior inquiry or investigation of a group or individual is no bar to current inquiries and inquiries should not be postponed until submission of airtel due 12/4/70. Initiate inquiries immediately. U

I cannot overemphasize the importance of expeditious, thorough, and discreet handling of these cases. The violence, destruction, confrontations, and disruptions on campuses make it mandatory that we utilize to its capacity our intelligence-gathering capabilities. U

Above instructions supersede instructions in Bureau letter to all offices 1/31/69, same caption. U

INITIAL REPORT RE: STUDENT PROTEST AT SWARTHMORE COLLEGE

On Friday January 3, 1969, [redacted]
[redacted] of Swarthmore College and [redacted]
of Swarthmore College appeared at Swarthmore Police Headquarters for
a meeting with me. This meeting was prearranged a day or two before. u

Purpose of this meeting was to inform me that the College had been
served a set of demands by a group of their students known as the
Swarthmore Afro Students Society. They number approximately twenty
although this figure seems to fluctuate somewhat. The demands which were
made were non-negotiable according to this group and that they fully
intend to take whatever steps they feel necessary to obtain these
non-negotiable demands. This is what their spokesman announced. u

[redacted] inquired as to what action
I would take if the College called for assistance due to student violence.
I informed them that in this case I would ask for State Police assistance
and they agreed this would be the best procedure. Their only request at
this time was for the Police not to be involved until asked as they
wanted an opportunity to play their hand. They felt the College could
handle this problem as long as outsiders did not appear on the scene. u

Late this same afternoon Sgt. [redacted] of the Penna.
State Police appeared at headquarters to check a report of problems
at Swarthmore College. I told him what had just taken place with [redacted]
[redacted] I added that when it becomes necessary I
would be asking for State Police help and he informed me that this
was available at my request. Certain things would have to be arranged
in advance. This would include routes to and from target area, a
building to house men and equipment etc. This was all arranged on
January 4, 1969 when Sgt. [redacted] returned to our headquarters with
Sgt. [redacted] of Media Barracks and Trooper [redacted] and Trooper
[redacted] u

Surveillance of Swarthmore College Campus was maintained
continually. Sgt. [redacted] would check by phone or stop in at close
intervals. His two men were here daily observing and obtaining all
printed literature from College available. [redacted]

FOR IMMEDIATE RELEASE

RESIST, a national resistance support group located in Cambridge, Massachusetts, today released copies of FBI files to selected newspaper and magazine reporters. These documents are copies of xerox copies which RESIST received from an anonymous source early this week. A covering letter (#1 included in this packet) explains that the files were removed by the Citizens Commission to Investigate the FBI from the Media, Pennsylvania, FBI office.

RESIST acknowledges receipt of the documents and makes them public because we believe that the information contained therein constitutes a basic violation of the civil rights both of individuals and of groups working for social change. However, we have removed names and other identifying facts from most of the documents, for to reveal the identities of those who have been spied upon would expose them to increased harassment. To take on this burden should be their choice, not ours.

The reporters selected to receive these materials have been chosen because of their previously demonstrated courage in discussing domestic political repression. For an example of the courageous way in which these documents can be dealt with by the press, we refer them to the front page of the Washington Post, 23 March 1971.

FOR IMMEDIATE RELEASE

RESIST, a national pacifist support group located in Cambridge, Massachusetts, today released a large number of FBI files on various representatives of the anti-war movement. These documents are copies of names and addresses which RESIST received from an anonymous source early this week. These are the files removed from the files of the office of the FBI by a group calling itself the Citizens Committee to Investigate the FBI.

RESIST acknowledges receipt of the documents and wishes that public interest in release of these files would lead to a more complete disclosure of the FBI's role in the investigation of the anti-war movement. RESIST also wishes that the FBI would be more forthcoming in its disclosure of the files and the names of the individuals who have been investigated.

The Citizens Committee explained that they have taken this step because they believe the release of these files is necessary to the anti-war movement. RESIST does not believe that they should have any right to the release of the Citizens Committee. RESIST has many other names and other individuals who, except when these names have been given permission to have their names included. To reveal the identities of the names of the individuals would expose them to increased harassment. To take on this burden should be their choice, not ours.

CITIZENS' COMMISSION REVEALS FBI FILES ON INFORMERS

The Citizens' Commission to Investigate the FBI released copies of FBI documents naming seven of their informants. Letters were sent by the Commission to these people over a week ago, as well as to the groups and individuals against whom they had been working. Copies of both letters accompany this release.

The Commission announced today that there were three U.S. senators among those previously sent copies of FBI documents:

Sam J. Ervin, Jr., Democrat from North Carolina
Charles Mathias, Democrat from Maryland
George McGovern, Democrat from South Dakota.

So far, the press has only reported receipt of these by Senator McGovern.

On March 8, 1971, files were taken from the Media office of the FBI. Among those files were lists of informers. Your name was one of those listed.

We realize that the FBI sometimes uses coercion of one kind or another in obtaining information from people like yourself. However the people you have been spying on are, on the whole, attempting to work for a more just and open society. Your cooperation with the government is seriously hindering this work.

Therefore, approximately one week after you receive this letter, the people you have been informing against will be notified of your activities. Later on, your name will be made public. We give you this time in order that you may make whatever plans you wish for your future.

You might want to openly discuss this matter with those you have been informing on. You will probably find them very understanding and willing to help you. However this is up to you.

Don't expect the FBI to help you. They have a habit of using people like yourself and then forgetting about them once their usefulness is over. But this again is up to you.

We regret that this action was necessary. But those are troubled times, and the struggle for freedom and justice in this society can never succeed if people continue to betray their brothers and sisters.

This person has already received a letter from us requesting this spying be terminated, as it destroys democratic values and the building of a more just and humane society.

In a few days, we will make these facts public so that this informer and others will be less able to continue their covert work.

RESIST

Cannot oppose the war without opposing the institutions that support and maintain it . . . Resistance to many forms of illegitimate authority is necessary to bring health to this country and make it a constructive force instead of a terror in the politics of nations.

-from A New Call to Resist Illegitimate Authority

ROOM 4 - 763 MASSACHUSETTS AVENUE - CAMBRIDGE - MASSACHUSETTS 02139

PHONE (617) 491 - 8076

April 22, 1971

FOR IMMEDIATE RELEASE

RESIST, a national resistance support group located in Cambridge, Massachusetts, today released a fourth packet of FBI files to selected representatives of the mass media. These documents are copies of xerox copies which RESIST received from an anonymous source late ~~in~~ this week. These are files removed from the Media, Pa. office of the FBI by a group calling itself the Citizens Commission to Investigate the FBI.

RESIST once again acknowledges receipt of the documents and makes them public because we believe that they offer another rare opportunity to the American public to compare official FBI and Justice Department public statements with first hand evidence of the nature and extent of the surveillance and intelligence-gathering activities of the national police.

We are enclosing Resist's "Call to Resist Illegitimate Authority" as this statement is mentioned on pages 5c and 6c of the documents. The Citizens Committee explains why they have released this fourth packet in their covering letter. The set of documents includes an example of a complete biographical survey kept on one individual for ten years. There is also evidence of cooperation between Canadian security police, the FBI, and the United States Embassy in Ottawa concerning the Union of American exiles.

RESIST has deleted the names of some of the individuals under surveillance except when the spied-upon have given their permission to have their names made public. To reveal their identities could possibly expose them to increased harassment. To take on that burden should be their choice, not ours.

On the night of March 8, 1971, the Citizens' Commission to Investigate the FBI removed files from an East Coast office of the FBI. These files will now be studied to determine:

—The nature and extent of surveillance and intimidation carried on by this office of the FBI, particularly against groups and individuals working for a more just, humane and peaceful society;

—How much of the FBI's efforts are spent on relatively minor crimes by the poor and powerless against whom they can get a more glamorous conviction rate, instead of investigating truly serious crimes by those with money and influence which cause great damage to the lives of many people: crimes such as war profiteering, monopolistic practices, institutional racism, organized crime, and the mass distribution of illegal drugs;

—The extent of illegal practices by the FBI, such as eavesdropping, entrapment, and the use of provocateurs and informers.

As this study proceeds, the results obtained along with the FBI documents pertaining to them will be sent to people in public life who have demonstrated the integrity, courage, and commitment to democratic values which are necessary to effectively challenge the repressive policies of the FBI.

As long as the United States government wages war against Indochina in defiance of the vast majority who want all troops and weapons withdrawn this year, and extend that war and suffering under the guise of reducing it, as long as great economic and political power remain concentrated in the hands of small cliques not subject to democratic scrutiny and control, then repression, intimidation, and entrapment are to be expected. We do not believe that this destruction of democratic society results simply from the evilness, egotism or senility of some leaders. Rather, this destruction is the result of certain undemocratic social, economic, and political institutions.

We have carried out this action in a way which does not physically threaten anyone. We intend no personal harassment of the people who work in the office from which the files were taken. Indeed, we invite them and others to join with us in building a peaceful, just, and open society; one which does not wage nor threaten war, which distributes human and material resources fairly, and which operates on the basis of justice rather than fear.

We have taken this action because:

—We believe that a law and order which depends on intimidation and repression to secure obedience can have but one name, and that name is tyranny;

—We believe that democracy can survive only in an order of justice, of an open society and public trust;

—We believe that citizens have the right to scrutinize and control their own government and its agencies;

—And because we believe that the FBI has betrayed its democratic trust and we wish to present evidence for this claim to the open and public judgment of our fellow citizens.

In doing this, we know full well the legal jeopardy in which we place ourselves. We feel most freely our responsibility to those who truly depend upon us, and whom we put in jeopardy by our own jeopardy. But under present circumstances, this seems to us our best way of helping and serving them, and in fact, all the people of this land.

The Citizens' Commission to Investigate the FBI.

Please copy and distribute the enclosed documents in the way you think will best build cooperation to war, the draft, and the repression which is used to impose the war.

CHESTER, PA.

A confidential source, who has furnished reliable information in the past and is in a position to know of activities among students at Pennsylvania Military College (PMC), Chester, Pa., advised during November and December, 1970, the following information: -U

During October, 1970, a Black Festival Week was held at PMC. This was organized by about ten of the 35 Negro students who are currently enrolled as students at PMC. The arrangements and activity were not well-organized, and did not receive recognition or publicity outside the college community. -U

The purpose of the festival was to invite persons to view the works of art and products developed out of neighborhood arts and crafts programs which were displayed at the school. These items had been created reportedly by the black students at PMC and the black high school and grade school students in the predominately black neighborhoods adjacent to the urban campus of PMC. -U

This source stated that out of this activity, and as a result of the planning that went into the activity, there was formed on campus, a Black Student Union (BSU). -U

The BSU, at the outset, reportedly comprised all of the black students at PMC who had stated that the purpose of this organization was to cultivate a "spirit of black awareness" among the whole student body, and encourage a larger number of black high school students to seek enrollment at PMC. -U

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

This source stated that BSU at PMC is a legitimate organization in that it is recognized by the school administration as a proper school activity; however, the organization is not funded through the student council nor does it have representation on the student council. There does not appear to be any connection between this organization and others on campus, insofar as control or influence on the activities of BSU. Also, there has been no indication that the BSU is influenced or controlled by any black militant individuals or organizations outside the campus. U

The source stated the BSU has not engaged in any militant-type activity on campus, and have not advocated or supported any such activity elsewhere. U

On February 24, 1971, this same source advised that he had learned that the BSU does not have designated officers or leaders with specific titles as do so many of the other campus student groups. He noted, however, that the leaders of the BSU are: U

 , a student who resides on campus,
 , a commuting student, residing at
 , Chester, Pa. U

This first source, as well as a second and third confidential source, who are in a position to know of black militant activity in the Chester, Pa., area, and have furnished reliable information in the past, advised the BSU at PMC have been basically dormant as an organization on campus and in the city of Chester. The group has not taken an active role in any local black militant activity and has not advocated or taken part in any disruptive action on campus. U

These sources described the BSU as a somewhat disorganized group of students, possibly having a membership and/or following of no more than 30 students and possibly a few as a half dozen, who have not displayed radical or militant ideas, and do not appear to be aligned with any radical or black militant groups. We cannot oppose the war without opposing the institutions that support and maintain it . . . Resistance to many forms of illegitimate authority is necessary to bring health to this country and make it a constructive force instead of a terror in the politics of nations.

-from A New Call to Resist Illegitimate Authority

PHONE (617) 491-8076

RESIST, a national resistance support group located in Cambridge, Massachusetts, today released a fifth packet of FBI files to selected representatives of the mass media. These documents are xeroxed copies of copies received from an anonymous source early this week. These are more of the files liberated from the Media, Pa. office of the FBI by the Citizens Commission to Investigate the FBI.

RESIST acknowledges receipt of the documents and makes them public because we are more strongly convinced than ever of the urgency demanded in finding some way of checking the apparently unlimited powers of surveillance and government-by-intimidation that these documents reveal. We affirm our belief that the removal of any individual or group of powerful figures 'at the top' is not the answer to the situation faced by the millions of Americans who are spied upon regularly by the national police. What is demanded is a full-scale investigation of the operating procedures of the Federal Bureau of Investigation, as well as the other governmental agencies (national and local) engaged in spying upon civilian American citizens. In lieu of this highly unlikely development, RESIST supports the efforts of the Citizens Commission to Investigate the FBI and encourages it to continue its fine work for the American people. Hopefully other Americans will come forth to do what is necessary to restore the last-disappeared ring American Constitution, particularly the Bill of Rights.

This packet names five additional FBI informers, indicates that the appearance of Martin Luther King, Jr. before the Women's International League for Peace and Freedom was equated in Mr. Hoover's eyes with 'Communist infiltration', confirms that the national police pose as credit investigators to obtain information from unsuspecting victims, and use private American citizens traveling abroad (often naturalized citizens) as spies. Also included is a national guide (Unique West Coast) to the

In view of the information developed concerning
this group, specifically, this group has not been involved
in advocating or promoting black militant activity, it is a
legitimate concern whether this does not appear to be linked
with any black militant groups on or off the campus.
Philadelphia is requested to take no further action on
this organization. The activities of this organization will
be followed through routine contacts with our sources in the
area. If in the future, and should any information come to
our attention to indicate the organization is engaged in
militant activity, the Bureau will be promptly advised.

Philadelphia will, however, open cases on the two
individuals listed on the list of C.B.S.U. and information
will be developed on these individuals so that this office is
aware of their identity and background.

DATE: 10/12/70

FROM: SAC JOE D. JAMIESON

SUBJECT: REVOLUTIONARY PEOPLES CONSTITUTIONAL CONVENTION
ORGANIZED BY THE BLACK PANTHER PARTY

For the information of all receiving agents, the Black Panther Party (BPP) sponsored a planning session for the above convention which was held here in Philadelphia 9/4-7/70.

At the conclusion of the above convention, the BPP held a press conference and stated that the actual convention would be held in Washington, D.C., on 11/4/70.

On 10/7/70 the Bureau advised that the dates of the above had been changed to 11/8-9/70 and that about 15,000 are expected to attend; this group will comprise of white as well as black extremists.

The Bureau has issued instructions that all offices must report the following information on a weekly basis:

1. various organizations planning to participate
2. mode of travel and identification of persons planning to attend
3. identities of organizers and persons who are to head work shops
4. identities of the leading speakers at the convention
5. agenda of the convention
6. plans for violence or disruptive demonstrations
7. plans to carry weapons or explosive devices

Re Indianapolis report of SA [redacted] dated

11/6/70.

The following investigation was conducted by

SA [redacted]

on 11/16/70, at Lansdowne, Pa.

On 11/16/70, [redacted] advised Local Board 58, Selective Service, Lansdowne, Pa., that due to the recent destruction of many of the current files of Local Board 58, she is unable to forward any back-ground papers regarding [redacted]. [redacted] stated she would search the remains of the destroyed files for any back-ground information she may have regarding [redacted] and forward this to Local Board 87, Selective Service System, Richmond, Ind. [redacted] further stated she would communicate with Local Board 87 and request that they furnish subject with Selective Service System Form 390 at Earlham College, Richmond, Ind.

[redacted] recalled that she had sent Selective Service System Form 390 to the subject. She further recalled that subject responded by letter indicating that he would not register for the Selective Service. She could not recall any further information regarding subject.

Staff Report

[] has asked to be hired full time for the next several weeks. This is okayed; [] is working on the mass mailing for the spring fund raising drive. [] may come back to work on the staff instead of going with the New England Free Press if her legal situation looks precarious.

Spring Ad

(Previously known as the "Winter Ad"). Ran in the Crimson on the 21st of April. Scheduled to appear in the Chicago Maroon, Daily Washingtonian, Minnesota Daily, and the Daily Cardinal during the week of April 25th. The total cost for submission of the university ads is \$880.66. The Phoenix in Boston is giving us a free full page ad at a cost of \$720!

Mass Mailings

Signatures already obtained for the covering letter are Noam Chomsky's, Kate Millett's, Ben Spock's, and Alexander Calder's.

[] will call Susan Sontag use of her signature. Don Kalish will also be added since so many of the envelopes are going to the West Coast.

[] has obtained 44,000 names from various movement groups - two lists will be dropped, they are from the Reservists Committee to Stop the War & Vietnam Veterans Against the War. The first does not promise a good return, the latter should be used for a subscription campaign during the summer. [] will obtain an agreement from LIBERATION to use their list soon.

The contents of the mass mailing is: a covering letter signed by the above people, tear sheet of the spring ad, a return envelope. On the back of the covering letter will be a list of movement groups that RESIST has funded since September of 1969 or a partial explanation of a handful; on the back of the tear sheet of the spring ad will be a collage of clippings about the FBI/RESIST caper and []'s subpoena.

[] suggests that an ad be written @the movement security kit, why the FBI files were distributed, and what RESIST is all about-- submit this to the Village Voice (a page ad). Use a blurb from []'s articles or his signature. Title: "What Can You Do About Those Men Knocking At Your Door" 1) don't talk. 2) write RESIST for mvt security kit, 3) contribute to RESIST. [] will collaborate on this.

A request from the Miriam Davis Scholarship Fund for our mailing list will be delayed abit. When they use ours, we should ask to use their list for either a fund raising or subscription campaign.

b6
b7C

-Direct Solicitation-

All agreed (1) that this was a necessary and good time to approach "angels" for money for both RESIST and []'s bail. Money should be raised on a "no return basis" and more than [] is necessary for bail should be sought. The Money can later be applied for funding.

- a) The burden for fund raising should fall not on the staff but the steering committee, the staff can be entrusted to day-to-day political decisions since they have handled them well in the recent past.
- b) Staff will send a list of names that [] provides about direct solicitation to other S.C. members. They will be people who should be approached soon, distribution will be along lines of geography and acquaintance.

[] will ask [] to [] up the Penn List.

- c) [] will confer with [] about organizing fundraising parties. Staff will ask [] about the feasibility of these parties at such a late date as this.

-Security Kit-

[] is still awaiting material about campus surveillance from friends in Chicago and Carbondale. [] is interested in looking at the entire kit with an eye toward publication. [] will send a copy of the Philadelphia DRUMMER article about organizing against FBI/Police harrassment. [] says the gaps in the areas which the kit covers are being covered up nicely, what is needed now is material about city and local police infiltration/surveillance. The NARNIC book on similar material (police technology, vietnamization of domestic problems) is coming out very soon. [] says the kit will be completed by the end of May.

Concerning advertisement about the Security Kit [] is submitting a letter to the NYRB as a follow-up on the Donner article which recently appeared. In it he will mention RESIST's kit. [] recommends that we submit 2" display ads in numerous underground papers plugging the kit. A press release for both Movement Security and H.S. organizer's Kits should be sent to LNS, WEN, PHOENIX, AND BOSTON AFTER DARK. A flyer for mail distribution should be made up advertising both kits on reverse sides of the sheet. No decision has been reached on the final cost of the kits not on the cost for purchase.

-FBI CAPER-

A discussion ensued about the hassels which came out of staff distribution of the liberated documents. The decision processes of the past month were discussed. The biggest problem is, of course, the legal one: RESIST is right in the middle of a twi-light zone regarding jeporady. As for handling

the press: the staff during the past month was constantly educated to the tensions inherent in developing personal relationships with journalists, and the latter drive to "get the story" by the most expeditious means possible. [redacted] suggested that the staff write up an article for publication somewhere about the experience and hassels of the last month. Perhaps LNS would distribute it. In the future, the staff will send copies of 1/2ackets received to S.C. members for distribution in their cities to other RESIST people. Several journalists have expressed interest in doing a long story on the background of RESIST, they will be refered to S.C. members for interviews. b6 b7C

Local FBI Committees: [redacted] said that ACLU is following up on movement harrassment of FBI in Philadelphia area: instructing students as well as others of their rights, what types of surveillance to expect and how to protect against it. He suggested an article in the Newsletter avocating such organizations in different cities. The next covering letter of a packet suggest this also. The points to explore in the newsletter is that most surveillance is carryd on by local "Red Squads" not the FBI., that Hoover is not the issue but rather the FBI, and that titillation and shock are not proper responses but rather mobilizing against surveillance is.

RESIST has not tapped into liberal groups which are in a flurry about the expos of the FBI. No cogent political development is coming out of this whole issue. RESIST should hold in issuing a statement advocating local citizens' commissions until National ACLU makes a more positive move. At that time, both RESIST and ACLU can issue a joint statement

Harrisburg Grand Jury

The reasons behind the new batch of subpoenas were discussed. [redacted] though that 1) Government has no evidence for conviction, trying hard to construct some, 2) a general attempt to smear the Catholic Left by implicating all with the original indictments, 3) an easy way to jail people and get them off the streets.

Raising/Speaker's Bureau

[redacted] will be asked to join the list of RESIST speaker's Bureau. [redacted] will ask [redacted] to handle all the arrangements on a volunteer basis.

Next issue of the Newsletter

Follow up article on FBI. [redacted]'s subpoena, Women's Conference in Toronto, [redacted] on drug situation in Vietnam, and blurb on availability and contents of Movement Security

RESIST and Attendance at National Organizational Meetings

[] raised questions about the future of the Peace Treaty--its political direction etc. Suspected that RESIST should be more active in the national anti-war movement and that this requires attendance at the large organizing meetings. Attendance should not fall on two or three people but should be an organizational responsibility.

Report on the BPP Split

[] analyzed the split in light of the history of the Party and its treatment in the establishment media, and [] (3) pointed particularly to the extent of successful police infiltration and harassment of nearly every local office and the national Party. He predicted that in the future one faction would adopt another name, with the opposite group sticking with the original name. [] is working on a detailed look at just what happens in the broader movement when a "vanguard" mentality pervades, and what happens to the group or groups in terms of pressure and harassment who are thought of as "vanguard".

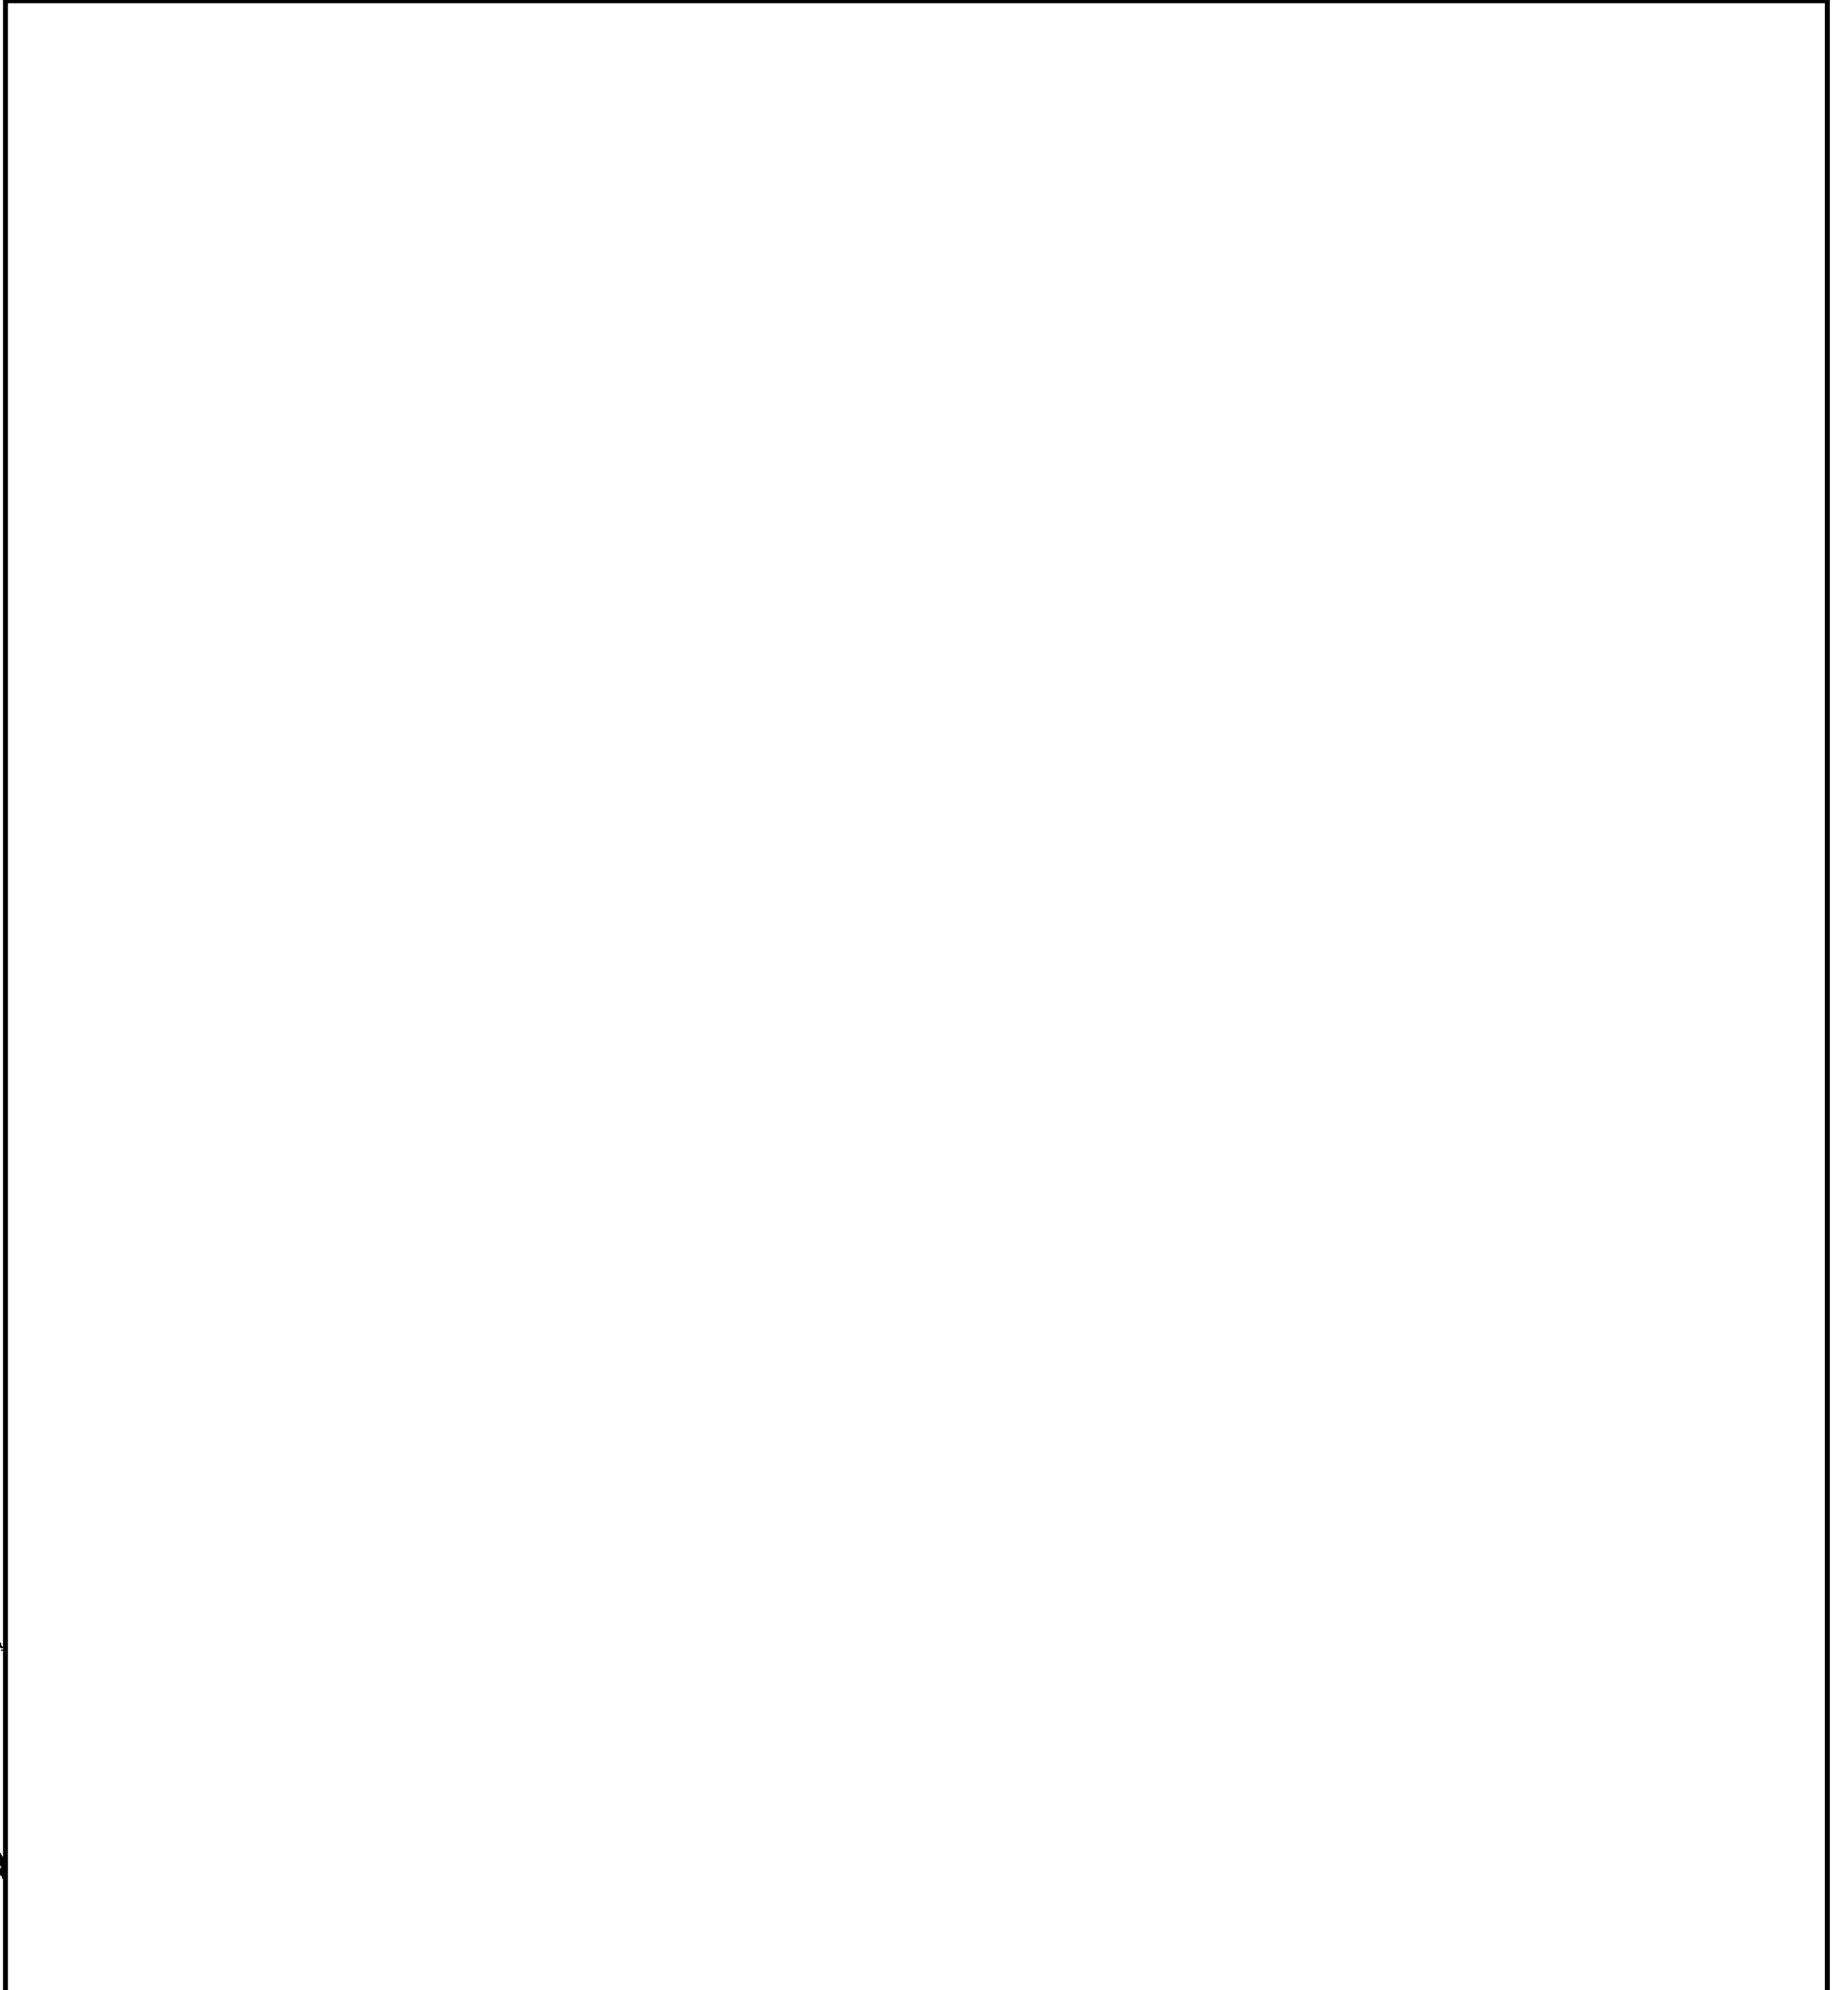

FOR NEXT TIME, S.C. AND STAFF SHOULD LOOK INTO DIFFERENT LOCAL ORGANIZING PROJECTS (such as the one in Lynn just funded) TO ATTEMPT AN EVALUATION OF WHAT IS ACHIEVED BY ORGANIZING WORKING CLASS WHITE COMMUNITIES.

FBI Sought to Recruit Informer Teams In Black Ghettos, Stolen Records Show

By BILL KOVACH

Special to The New York Times

the village VOICE, April 15, 1971

BOSTON, April 12—A group calling itself the Citizens Commission to Investigate the F.B.I. has the names of persons who functioned as informers for Federal Bureau of Investigation over the last few years.

The informers, ranging from a college switchboard operator to bank employees and the dean of student affairs at a predominantly Negro college, were notified by the commission a week before that they would be identified.

The action became known through the release of the latest of a series of packages of documents stolen from the Media, Pa., office of the bureau on March 8.

Copies of eight documents and two letters written by the commission were obtained by The New York Times from Resist, an organization in Cambridge that supports and helps fund community-based organizations opposing the war in Vietnam. Resist has received from anonymous sources copies of each package of documents released by the commission.

Mentoff

On Friday afternoon, April 2, two special agents of the FBI came calling. Without an appointment. They were cordial. (The agents I have met in the course of their work tend to smile a lot.) These two agents wanted to know if I would show them the material about which I had written a column, "Investigating the FBI" (Voice, April 1). I told them that my legal adviser in matters that affect my civil liberties is the ACLU, and I gave them Aryeh Neier's name.

Last week, I received in the mail from RESIST a second batch of material originally obtained by the Citizens' Commission to Investigate the FBI. I agree with RESIST that "it is very important that these documents be made as public as possible as the American people should realize the extent to which we all are under surveillance."

Text of Letter on Theft

Following is the text of a letter received by The Bulletin yesterday from a group calling itself "The Citizens' Commission to Investigate the FBI." The letter accompanied copies of 25 pages of documents which the group alleges were "removed" from an "East Coast" office of the FBI.

On the night of March 8, 1971, the Citizens' Commission to Investigate the FBI removed files from an East Coast office of the FBI. These files will now be studied to determine:

—The nature and extent of surveillance and intimidation carried on by this office of the FBI, particularly against groups and individuals working for a more just, humane and peaceful society;

—How much of the FBI's efforts are spent on relatively minor crimes by the poor and powerless against whom they can get a more glamorous conviction rate, instead of investigating truly serious crimes by those with money and influence which cause great damage to the lives of many people; crimes such as war profiteering, monopolistic practices, institutional racism, organized crime, and the mass distribution of lethal drugs;

The Phoenix received the packet of documents through a secondary distribution organized by Resist, a national anti-war resistance group based in Cambridge. Resist had received the packet by mail last Saturday, and forwarded the papers to this reporter on Wednesday. As far as can be now determined, in this area only Resist and Boston Globe peace-beat reporter Mike Kinney received copies of the documents directly from the Citizens Commission to Investigate the FBI. The story was

The FBI Story (II)

The House Majority Leader, Hale Boggs, claims the FBI keeps watch on congressmen. Senator Muskie has evidence that agents were in the middle of last year's Earth Day rallies. Senator Mansfield is concerned that four conversations between Rep. John Dowdy and an FBI informant were recorded electronically, with the knowledge of J. Edgar Hoover. Senator McGovern calls the FBI the Federal Bureau of Intimidation. Meanwhile, the Bureau goes about its business. Dozens of agents were in the streets April 15 in Boston, New York, Philadelphia, Washington, DC and Lewisburg, Pa., dealing out subpoenas to 12 antiwar, antidraft people requiring them to appear before the Harrisburg grand jury that is seeking evidence in an omnibus conspiracy case pitting the US government against John Doe and other unnamed persons. It took ten agents to deliver a subpoena to Claudette Piper, asso-

...are national director of Resist, though at the time they needed the help of the Resist office staff: agents hadn't noticed Miss Piper going into the building and had to be alerted to the fact.

But there isn't, as special agent James L. O'Connor wants us to believe, "an agent behind every mailbox." For liberated FBI documents continue to flow out of Philadelphia from the Citizens' Commission to Investigate the FBI to major newspapers and to Resist, and from Resist to an ever wider audience of reporters. The White House statement that "snooping or surveillance of private citizens is totally repugnant to the President and this Administration" is either untrue, or the White House is unfamiliar with the range of FBI informants enlisted for the "surveillance of private citizens." In evidence:

► the secretary to the director of studies at the Quaker Upland Institute (Chester, Pa.) furnishes unspecified information to the Bureau;

► the dean of student affairs, Lincoln University, has his eye on the Black Power movement there for the FBI;

► the secretary of the registrar, Swarthmore College ("an established source who requests that her identity be protected"), gives over the contents of its file on Jacqueline Reuss (daughter of Rep. Henry Reuss) to Mr. Hoover's agents;

► the assistant chief, Rutgers Campus Patrol ("an established and reliable source [Protect]") provides information and promises to seek more on a Livingston College student and on Revolutionary Peoples Constitutional Convention activities there;

identified as xerox copies of files removed by the Citizens' Commission to Investigate the FBI on March 8 from the Media, Pa. office of the FBI.

RESIST acknowledges receipt of the documents and distributes them to reporters around the country who have previously demonstrated courage in discussing domestic political repression. We believe that the information contained therein constitutes a basic violation of the civil rights both of individuals and of groups working for social change.

as eavesdropping, entrapment, and the use of provocateurs and informers.

As this study proceeds, the results obtained along with the FBI documents pertaining to them will be sent to people in public life who have demonstrated the integrity, courage and commitment to democratic values which are necessary to effectively challenge the repressive policies of the FBI.

As long as the United States government wages war against Indochina in defiance of the vast majority who want all troops and weapons withdrawn this year, and extends that war and suffering under the guise of reducing it, as long as great economic and political power remains concentrated in the hands of small cliques not subject to democratic scrutiny and control, then repression, intimidation, and entrapment are to be expected. We do not believe that this destruction of democratic society results simply from the evilness, egotism or senility of some leaders. Rather, this destruction is the result of certain undemocratic social, economic and political institutions.

We have carried out this action in a way which does not physically threaten anyone. We intend no personal harassment of the people who work in the office from which the files were taken. Indeed, we invite them and others to join with us in building a peaceful, just, and open society; one which does not wage nor threaten war which distributes human and material resources fairly and which operates on the basis of justice rather than fear.

We have taken this action because:

—We believe that a law and order which depend on intimidation and repression to secure obedience can have but one name, and that name is tyranny;

—We believe that democracy can survive only in an order of justice, of an open society and public trust;

—We believe that citizens have the right to scrutinize and control their own government and its agencies;

—And because we believe that the FBI has betrayed its democratic trust and we wish to present evidence for this claim to the open and public judgment of our fellow citizens.

In doing this, we know full well the legal jeopardy in which we place ourselves. We feel most keenly our responsibilities to those who daily depend upon us, and whom we put in jeopardy by our own jeopardy. But under present circumstances, this seems to us our best way of loving and serving them, and in fact, all the people of this land.

Still, these victories are seldom permanent and it is fair to ask what we in the movement have done to make ourselves weaker than we might have been.

Consider RESIST. In 1967, RESIST was founded upon a "Call to Resist Illegitimate Authority". In it we found the Government to be waging unconstitutional and illegal war, and we called upon "every free man . . . to exert every effort to end this war, to avoid collusion with it, and to encourage others to do the same." Like much of the anti-war movement, RESIST opposed the Government in un-orthodox ways, but our underlying politics were liberal reformist. Liberals try to cope with the disorders of the social system as "problems". And so we knot our brows over the problem of poverty, the problem of racism, the problem of air pollution, and alongside them, the problem of Vietnam. *The flaw is this: to see something as a problem is to adopt the goals of the system afflicted with the problem and to seek ways to make the system work better* — to restore its legitimacy. This approach forbids seeing how problems are related to one another. It forbids seeing the whole system as sick.

Well, by 1968 the war was perceived almost universally as a "problem", so it could easily be brought within the scope of electoral debate. Nixon, Humphrey, and every other candidate had his "solution" to the Vietnam problem — and that almost always meant a technical proposal for scaling down the war while maintaining U.S. domination of Southeast Asia. Much of the voting public, though vaguely unhappy, nonetheless seems to have accepted the idea that Nixon is trying to solve The Problem, and are willing to let him have his innings. So Cambodia can be swallowed as part of the solution, so Laos can be destroyed if the solution requires that, so North Vietnam . . . ? *And in such ways does the anti-war movement become the pro-war consensus!*

Indochina.

If our analysis is near the mark, then no problem approach, no specific technical solution, no elected leader, or hopeful belief in the greening of America is likely to be much help. And for the same reason, neither will the government's air war in Indochina and propaganda war at home serve for long. The *Pax Nixoniana* is a great illusion that cannot be sustained, because it has in no way reduced the illegitimate use of force or ameliorated the suffering of people. Shooting students, breaking up militant black organizations, and passing "anti-riot" laws may achieve an artificial calm, but that calm will surely be broken as people find new ways to lay claim on a more humane society.

The enemy in this struggle is General Motors and General Dynamics and Attorney General Mitchell and the Pentagon and American investment abroad and fanatic consumerism and system of basic decision-making through the "free" market that guarantees individual acquisitiveness the say over collective well-being, and profit in the short run over survival in the long run.

RESIST works in small but concrete ways to oppose these forces and restore America to the people.

We give most of our income to local organizations that are working specifically for liberation within the belly of the monster. In the past three years we have funded over 300 groups like the Motor City Labor League, Ozark Free Press Association, *El Grito del Norte*, DMZ Coffeehouse, Tacoma Resistance, Southeast Ohio Women's Liberation, and the Soledad Brothers Prison Organizing Project. Groups like these need much more support than we have been able to give them. *They are trying to do what can never be done by systems engineers and government task forces.* We ask you to help us help them. Unless they and we are strong, the future is bound to be more of the same. But worse.

Why should you support RESIST when all the anti-war groups together have failed to stop the destruction of Indochina?

We are asking for your support, but not without trying to answer that question.

For despite the rhetoric of pacification and de-escalation and Vietnamization, the war continues in Vietnam, the invasion of Laos is accompanied by heavier bombing than the Second World War, and the Cambodian campaign has taken on all the marks of permanency. So far as we can tell, Nixon's objective is to make the Southeast Asian nightmare less visible to American people since it is increasingly being fought by our Asian mercenaries, aided by U.S. technology. As U.S. troops are withdrawn piecemeal and families are reunited, the increased suffering of millions of Asian peasants becomes ever more remote from the American conscience. Meanwhile, defense of "American interests" in Indochina can continue, people can be burned, villages can be destroyed, the country-side can be evacuated, and new weaponry can be tested, much as in other times under other names.

All this is called "Vietnamization." As Senator Symington said, "If we can find other people to fight for us, then we should use them." Under the cynical guise of "protective reaction" the American public begins to accept not just the invasions of Cambodia and Laos but the resumption of the bombing and possibly a land invasion of the North. With each escalation — the commando raid of an empty POW camp, the bombing and invasion of Laos, talk of invasion of North Vietnam, and nuclear saber-rattling by Ky — Nixon refuses to consult Congress or to consider public opinion. Thus the current escalations and reversion to nuclear blackmail and brinkmanship of earlier administrations must be regarded as mere warning of what the Vietnamese can expect after surplus U.S. troops are withdrawn and the semi-permanent garrison level of up to 200,000 troops is reached. As the people of Southeast Asia know best, the anti-war movement, for all the public support it has gained, has failed in its main objective.

What can we learn from this experience? One thing — and we scarcely needed Vietnam to prove it — is that the forces which wanted war are stronger than those which did not. But the movement does have to keep at its work, year after year, taking hope from its occasional victories — the retirement of Lyndon Johnson, the limits set on the Cambodian invasion.

God damn. How many times is that going to happen to us, liberal, left, and radical America?

Who will be the next politician to sell us some fine technological solutions to our problems, and tell us to shut up until we see how well the experts move the ball? In 1969 RESIST said, in "A New Call to Resist Illegitimate Authority":

The war in Vietnam is neither a unique folly nor an error in judgment. Since the end of the last century, U.S. power has been used for economic, political, and cultural exploitation of smaller and poorer nations.... U.S. history has included the systematic conquest and slaughter of American Indians, the enslavement, degradation, and murder of Afro-Americans, the callous exploitation of Chicanos... We cannot oppose the war without opposing the institutions that support and maintain it.

And we offered support, not only to draft resisters, but to those who resist by:

- conducting tenants' and workers' strikes, boycotts, and similar direct actions aimed at ending exploitation in the fields, in factories, in housing.

- organizing against harassment by police, by the FBI, by the courts, and by Congress

- organizing sit-ins, strikes, and any principled actions at schools, and universities, to end racist and sexist practices and direct complicity with militarism

RESIST continues to support civil disobedience and direct action against illegitimate authority.

More important still, we try to help people who are building alternate institutions, people finding ways to serve their own needs, people struggling against domination by corporations. We think it crucial now for tenant groups, day-care cooperatives, ecological action groups, free schools, independent newspapers, women's groups, and all such local organizations to begin the necessary transfer of power from the "megamachine" to the people it threatens to crush. In this perspective, groups like these are not fighting separate battles from black liberation groups, Chicano, and Puerto Ricans, or from G.I. anti-war organizations, draft resistance groups, or people who directly attack illegitimate property like draft files and war installations. We see all such groups as mutually supportive, and as the best allies within the country of those who suffer from and struggle against American power in

Dear Friends:

We think the enclosed statement and the work of RESIST speak for themselves. For almost four years RESIST has supported the needs of those doing the hard day-to-day, month-by-month organizing among G.I.'s and draft age men, in black and white working communities, and more recently among women by providing the help these organizers need for underground papers, offices, coffee houses, counselling and people's action centers.

While the movement must mobilize itself for massive public demonstrations, it must also sustain, indeed expand, its' base through local grass-roots organizing. That's what RESIST is devoted to doing. We hope you will give it your support.

"It's The Thing"
VERBATIM TEXTS
OF FBI MEMOS

According to copies of secret FBI documents, mailed anonymously to the Journal, you are being spied on by the FBI if you are an officer or even a key activist in any of the many local campus organizations "organized to project the demands of black students."

You are being investigated on direct orders of J. Edgar Hoover. A copy of Hoover's directive is among an assortment of FBI documents stolen March 8 from an FBI office at Media, Pa., near Philadelphia, copied, and mailed to several newspapers.

The FBI acknowledged on March 24 that the documents are authentic.

You are also under investigation, or soon will be, if you are a student, scientist, or "professor" and have spent more than a month in the USSR. The purpose, says an FBI memo, is to discover if Soviet intelligence agents have attempted to recruit you.

The memo makes particular reference to students, and cautions agents that "the motives of the Bureau...must not be construed as infringement of the American educational system and the pursuit of intellectual freedom."

UNEXPECTEDLY WIDE SURVEILLANCE

Sweeping investigations are also going on among student and peace groups, the stolen documents reveal. The files even contain a copy of a letter from a midwest boy scout leader who asked the Soviet Embassy how to get permission to tour Russia during the trip to Europe.

The documents suggest that FBI surveillance of dissenters on the political left has been far more extensive than was generally known, according to one observer.

"They also show that the subjects of inquiry include obscure persons marginally suspected of illegal activity."

The comments were made by Fred Graham in the New York Times.

Copies of the material were sent to the Times, the Wash-

ington Post, the Los Angeles Times, and the Journal. Some sources say copies were also sent to one or more underground newspapers. Excerpts have been printed, but at Journal press time no news had appeared in Rochester media.

DUBIOUS LEGALITY

The pilfered documents reveal the FBI itself has engaged in activities that may be illegal. Under orders from the local postmaster, a mailman reported on mail sent to the address of a Swarthmore, Pa., teacher who had invited a Black Panther spokesman to talk on campus.

Although spies and informers gave the information cited in most cases, phone taps are used extensively in some cases, the documents disclose.

If Rochester residents are active in peace, racial rights, or other movements for social change, they may be subject to similar phone spying.

As reported in a copyrighted story in our January issue, members of the Flower City Conspiracy testified to seeing handset equipment in FBI offices here. A Rochester Telephone spokesman said "with this type of equipment, any telephone in the greater Rochester area could be tapped without our knowledge."

A special bureau in the phone company which deals exclusively with wiretaps has been reported. Asked the number of legal taps now in operation, a phone company spokesman reportedly declined comment.

Under the omnibus bill created by the Nixon administration, a phone in any area can be tapped on court order signed by a judge anywhere else in the country. Hence a judge conveniently near Edgar Hoover's office can order a phone tap in Rochester, with nobody but the phone company the wiser.

A phone subscriber can allow their own phone to be tapped without even a court order. Thus the U of R, RIT, or the company you work for can give consent for tapping your office or dormitory phone, without your knowledge, as you aren't the subscriber.

PERSONAL PROTECTION

The purloined FBI communications indicate that the information given or withheld from the spies often depends on the ethics of the person who is questioned.

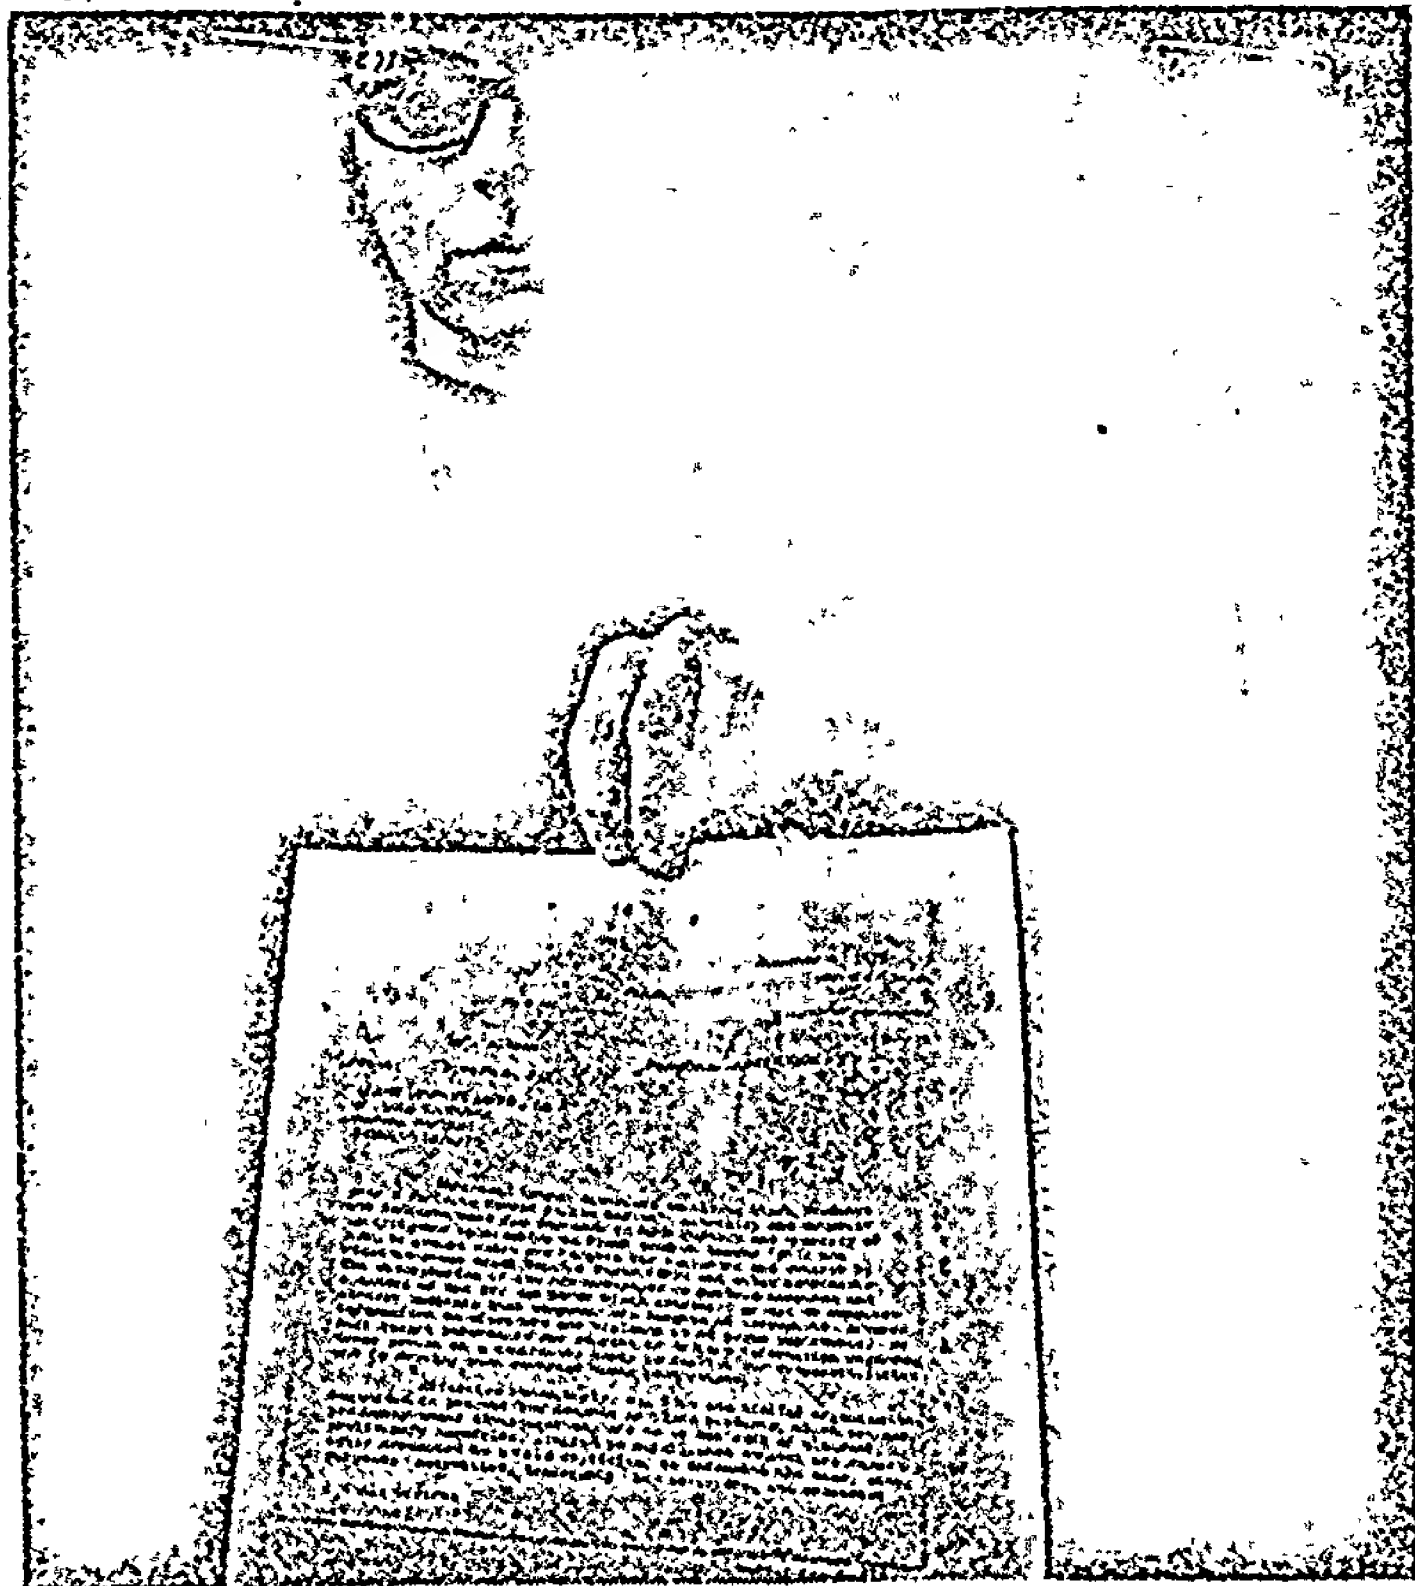

In one case, Dr. Howard Wright, acting chancellor of the Eastern Shore campus of the University of Maryland, gave the FBI extensive information about the president of the student government association. The student had led a demonstration, and "constantly attempted to raise issues with the University Administrator with no success."

In another case, spies left the University of California at Berkeley virtually empty-handed. University policy prohibits release of information about a student without the student's written permission -- or the issuance of a court order.

One wonders if students and faculty are protected by any such policy at Rochester-area colleges, high schools, and two-year colleges.

The California case concerned a girl whom one agent called "an inveterate Marxist revolutionist." She had attended one meeting of the Venceramos Brigade, which later cut sugar cane in Cuba. Another agent called her an "average liberal minded student."

A startling find in the FBI trove was copies of the bank balance statement of the Black Economic Development Conference. The copies had been supplied by Allan Ferguson, an officer of Southeast National Bank, Chester, Pa., who also furnished

Copy of directive from Hoover requesting surveillance of Black student organizations.

microfilm copies of checks passing through the account.

Other informants included switchboard operators, police officers, campus security officers, and neighbors.

Some information seemed trivial. Hippies were seen near a professors' garage. A wiretap report included remarks about

lack of heat in an office, and the fact a girl's baby was due.

Many documents reflected a governmental hope that good FBI agents will give more to their nation than just spy reports. At the bottom of the memos appears the slogan "Buy U.S. Savings Bonds Regularly on the Payroll Savings Plan."

The following was part of a 2 page directive sent by J. Edgar Hoover on November 4, 1970. It clearly points out the pervasiveness of the FBI's activities.

PERSONAL ATTENTION

FROM: Director, FBI

black student groups on college campuses racial matters

Increased campus disorder involving black students pose a definite threat to the Nation's stability and security and indicate need for increase in both quality and quantity of intelligence information on Black Student Unions (BSU) and similar groups which are targets for influence and control by violence-prone Black Panther Party (BPP) and other extremists.....

Effective immediately, all BSUs and similar organizations organized to project the demands of black students, which are not presently under investigation, are to be subjects of discreet, preliminary inquiries, limited to established sources and carefully conducted to avoid criticism, to determine the size, aims, purposes, activities, leadership, key activities, and extremist interest or influence in these groups..

Each office submit by airtel to reach Bureau by 12/6/70 a list of

BSUs and similar groups by name and school, which are or will be subjects of preliminary inquiries....In connection with this program, there is a need for increased coverage and we must develop network of discreet quality sources in a position to furnish required information...

I cannot overemphasize the importance of expeditious, thorough, and discreet handling of these cases. The violence, destruction, confrontations, and disruptions on campuses make it mandatory that we utilize to its capacity our intelligence gathering capabilities.

The following paragraphs are expected from a report dated 11/13/70 on a Swarthmore professor on whom the FBI was keeping close tabs.

"The Chief noted that the garage to the rear of the BENNETT residence has been converted into a printing shop and it houses enough equipment to publish a newspaper. He does not know that a newspaper is published there, but he is keeping a close eye on the garage to ascertain what activity takes place there. He said a leaflet was printed there several months ago and that this leaflet called for support for the Black Panthers scheduled for trial in Phil. in October 1970.

The Chief is certain that no one lives in the garage but he

has seen "hippie types" frequent the garage. He will remain especially alert for the appearance of the subjects and he will contact his sources and alert them concerning the subjects."

The following excerpts are taken from a letter contained in the material from the FBI file. It was written by a professor at the University of Idaho to the Embassy of the U.S.S.R. That it ended up in the files of the F.B.I. is a frightening fact.

November 4, 1970

Embassy of U.S.S.R.,
Washington, D.C.

Dear Sirs:

I am writing this letter as advisor of a group of Explorer Scouts here in Moscow, Idaho. This is a group of Boys (ages 15-17) who are interested in camping, conservation, and generally out-of-doors.

Next summer, we would like very much to go to the Soviet Union, to travel through your country and meet our counterparts in the U.S.S.R., if possible. What I would like to know is "How do we go about this?"

The letter goes on to describe that the Scout troop would like to visit a farm, talk with Russian youth organizations in an effort "to promote peace and understanding between our peoples."

— Hoover Talked Too Much —

J. Edgar Hoover should have known better.

That is the gist of a statement made by a Justice Department spokesman to two Rochester visitors, concerning Hoover's pre-indictment accusations against the Berrigan brothers and other people involved in the alleged Washington "air duct" conspiracy.

Hoover made his accusatory statements before a closed meeting of the Senate Appropriations Committee. Immediately after the Committee meeting, Senator Byrd of West Virginia called a press conference and released Hoover's statement.

Commenting on Hoover's action, John Hushen, director of Public Information for the Justice Department, told two Rochester Quakers that Hoover had dealt with Capitol Hill for a long time and should have known better. He also confirmed that there was an explicit Department policy against accusing people of crimes prior to a legal indictment. He said Hoover's statement had caused "a lot of difficulty" for the Department and that actions of this time could "do nothing but hurt" the Justice Department.

Official policy calls for all public statements emanating from any division of the Department—including the FBI—to be cleared through his office, Hushen declared. Hoover's statements concerning the Berrigan brothers and the so-called East Coast Conspiracy were not. He said that even Attorney General Mitchell was not aware that Hoover planned to make statements about the investigation.

Hushen's statements were made during an interview with Mark Myers and Charles Piersol in Washington on January 29. Both men were appointed by the Rochester Monthly Meeting of the Religious Society of Friends (Quakers) to express the Meeting's concern about the pre-

mature accusations.

SCARING UP FUNDS?

Was Hoover using the accusations to try and scare up funds for the FBI? In reply to a question to this effect, Hushen said he was aware of rumors suggesting that the Justice Department was prosecuting the case to get Hoover out of trouble, and he denied these charges.

The Department, he said, "would not do that for anyone", no matter how important. Given the number of Catholics in the United States, it would be "unthinkable" for the Department to prosecute a small group of priests without good reason, Hushen said.

Hushen said that he felt that although premature statements had been made against the defendants, they are now receiving ample opportunity to make their own public statements. He said he felt that some of their statements were "exaggerated," citing Sister Joques Egan's claim that the FBI was tapping phone calls between the Catholic Church and Rome, as an example.

WHITEHOUSE GOOF-UP

Hushen said the White House had released incorrect information about the use of FBI agents on college campuses. The White House has inferred that the FBI would use 1,000 new agents on campuses to control violence.

In fact, he said, the FBI sends agents to campuses only when bombings have occurred, or if the college administration invites the FBI in. He said, 600 new agents would work against organized crime, 200 on anti-hijacking duties, and 200 in regional offices.

Hushen admitted that the relationship between the FBI and the rest of the Justice Department is a difficult one, and "has not always been what it should be". He did not respond to a suggestion that the Department should exert more control over the FBI.

Spy On Your Friends

Perhaps it was the 18-year-old vote that did it. Or meeting fine young kids like Tricia 'n Dave 'n Lynda. Whatever it was, J. Edgar Hoover has choked back his terror of young people enough to authorize some neat spare-time job openings for FBI informers in the 18 to 21 age bracket.

Take advantage of it fast, kid, because you're among the first to know. The new junior flink gig is revealed in stolen FBI documents, copies of which were anonymously mailed to the Journal. Few other papers have the news yet, and to the best of our knowledge none have published it.

"We have been blocked off from this critical age group in the past," reads a ripped-off FBI memo which comments on Hoover's new ruling. "Let us take advantage of this oppor-

tunity."

It's a federal job and the pay is good. Much better than a hick police department was able to scrape up for Tommy the Traveler.

The feddles in a local FBI "Division" apparently can pay young spies up to \$300 a month without even checking with higher-ups. That's pretty good cash for a broke student. Payments can range higher than that, but your friendly FBI man or woman has to get authorization "on a much higher level," according to the memo.

The liberated memo, incidentally, reveals that FBI folks sometimes can't spell too good. "Consensus," for example, is spelled "concensus." So you probably don't need a superbrain to get a spare time FBI job flinking on your friends. Just a strong stomach.

"Enhance Paranoia"

If you ever suspected the government wants to drive you paranoid, you may be right.

Evidence is in a copy of a stolen FBI document anonymously mailed to us.

The document is an FBI newsletter, entitled, of all things, "New Left Notes". It discusses plans to interrogate "new Left" activists, as well as supposed associates. Says the newsletter:

"There was a pretty general consensus that more interviews with these subjects and hangers-on are in order for plenty of reasons, chief of which are that it will enhance the paranoia endemic in these circles and will further serve to get the point across there is an FBI agent behind every mailbox."

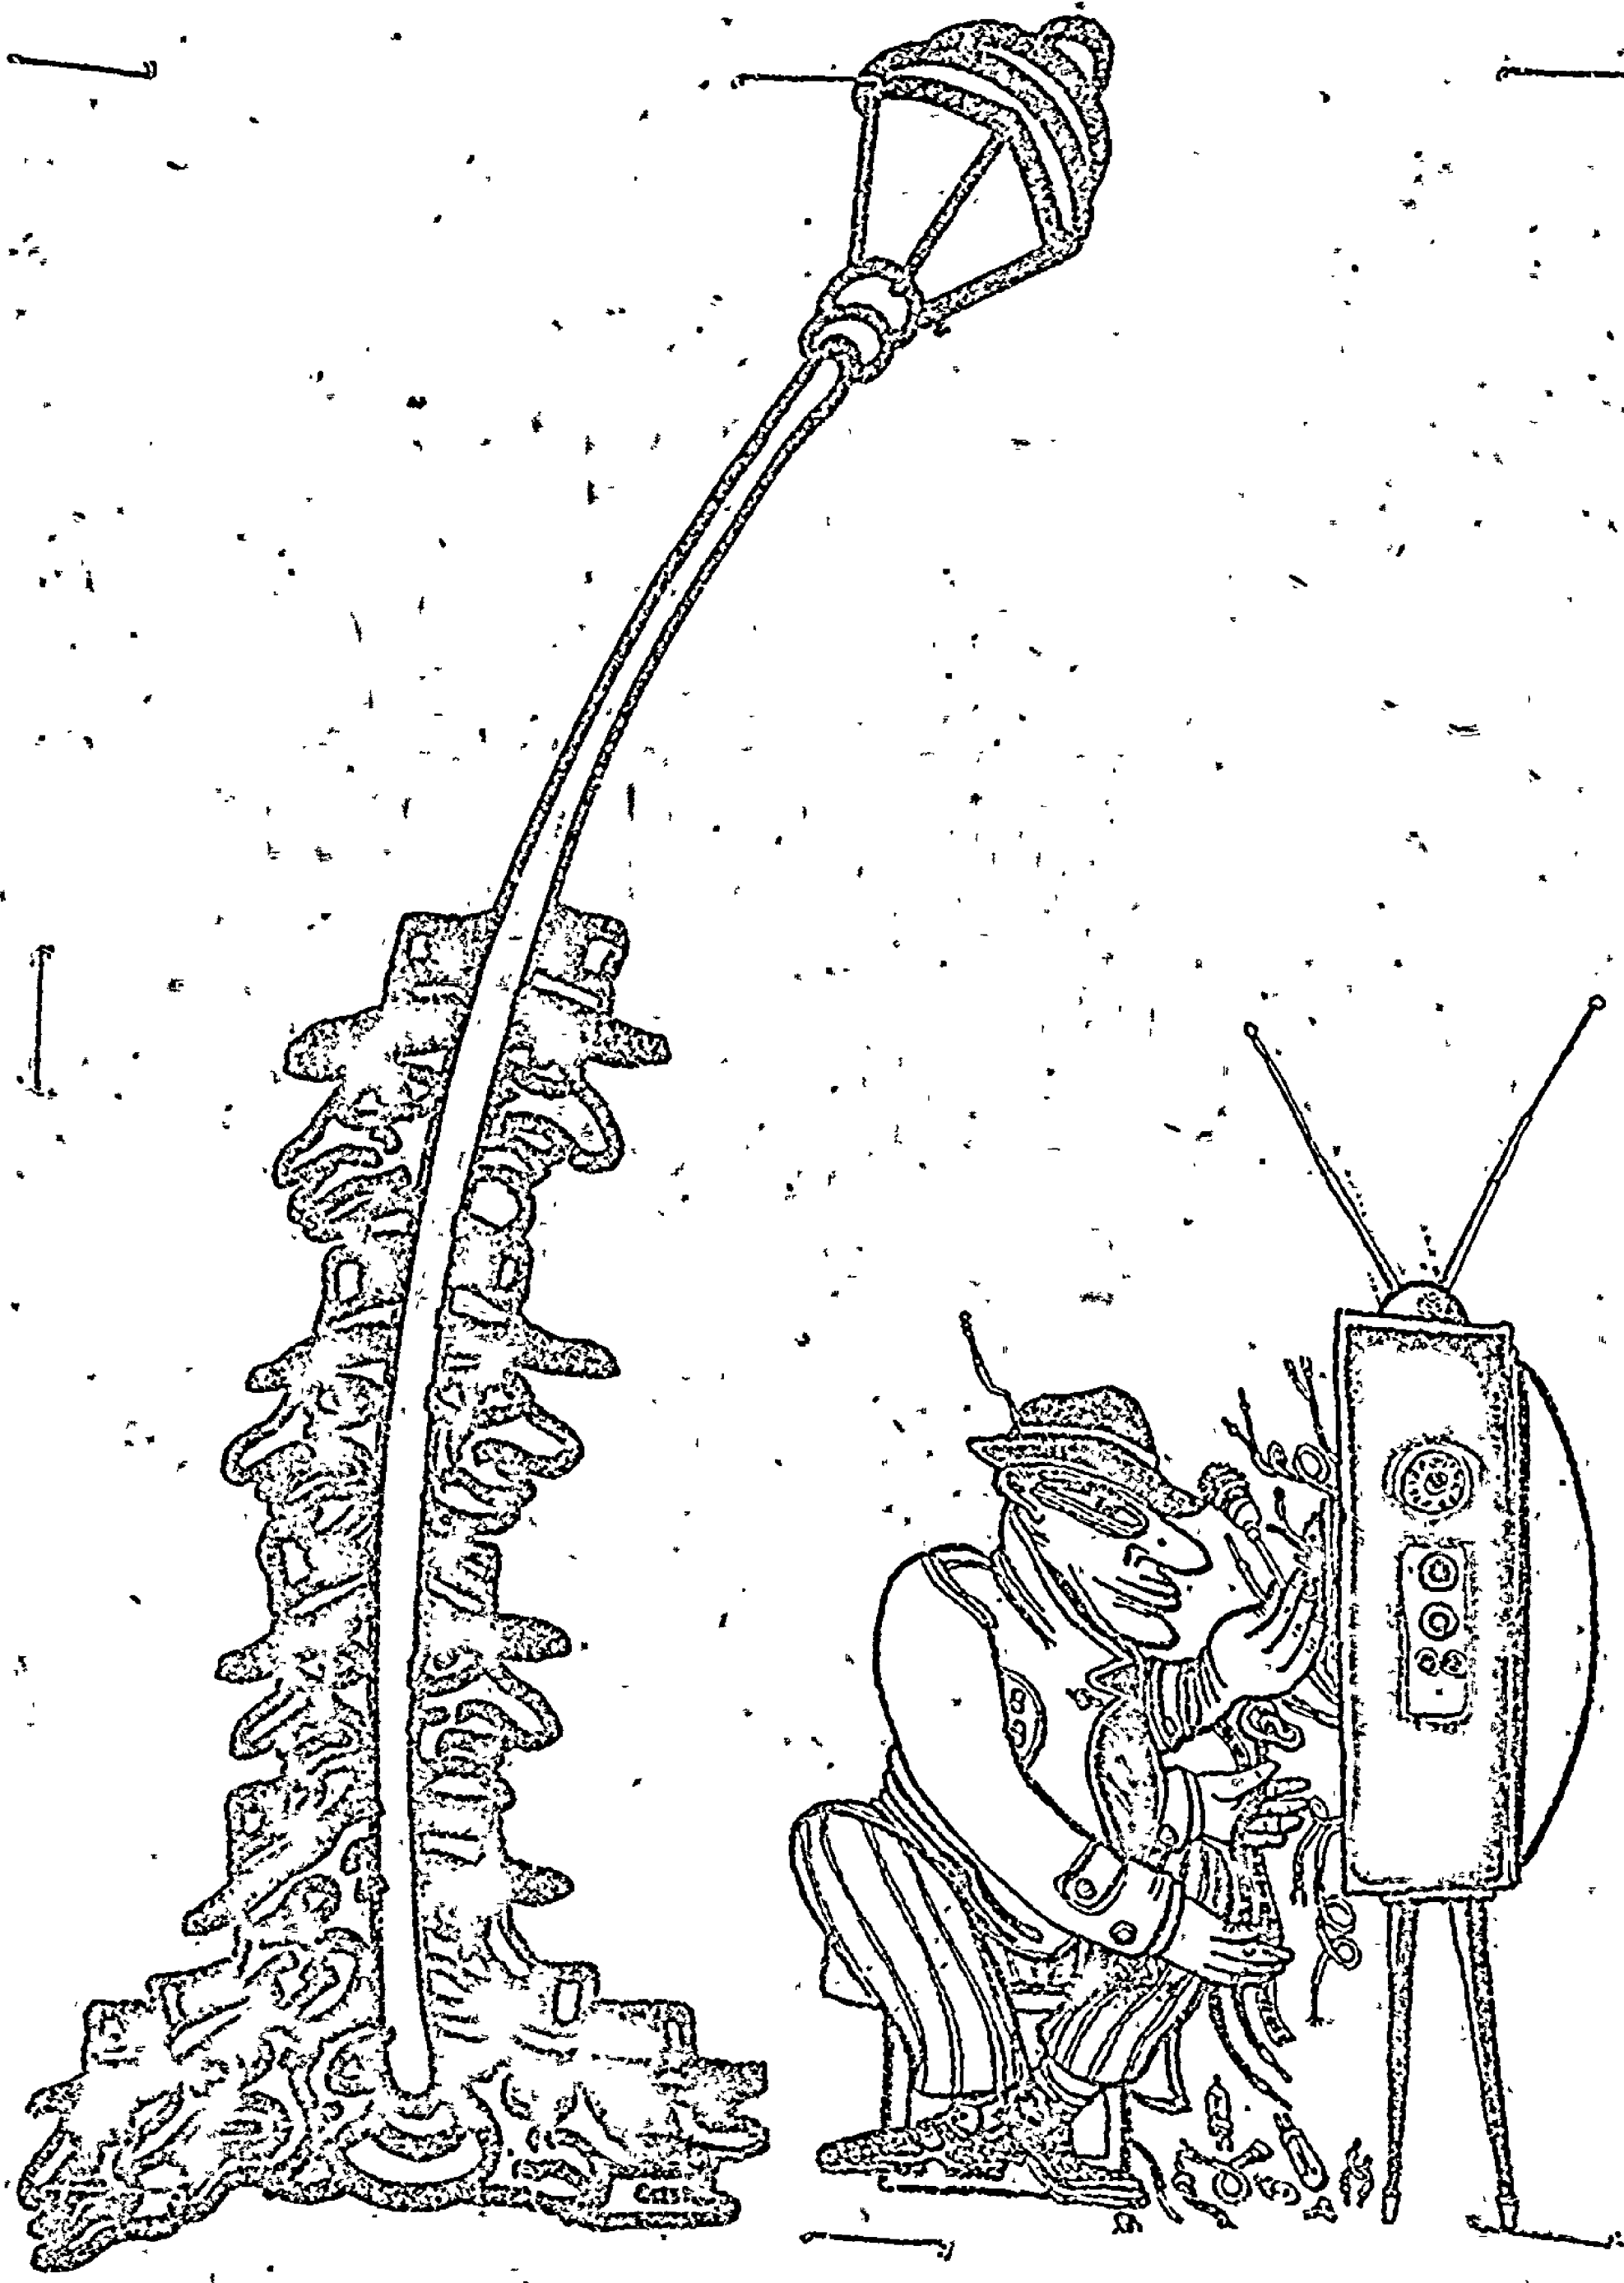

"In addition, some will be overcome by the overwhelming

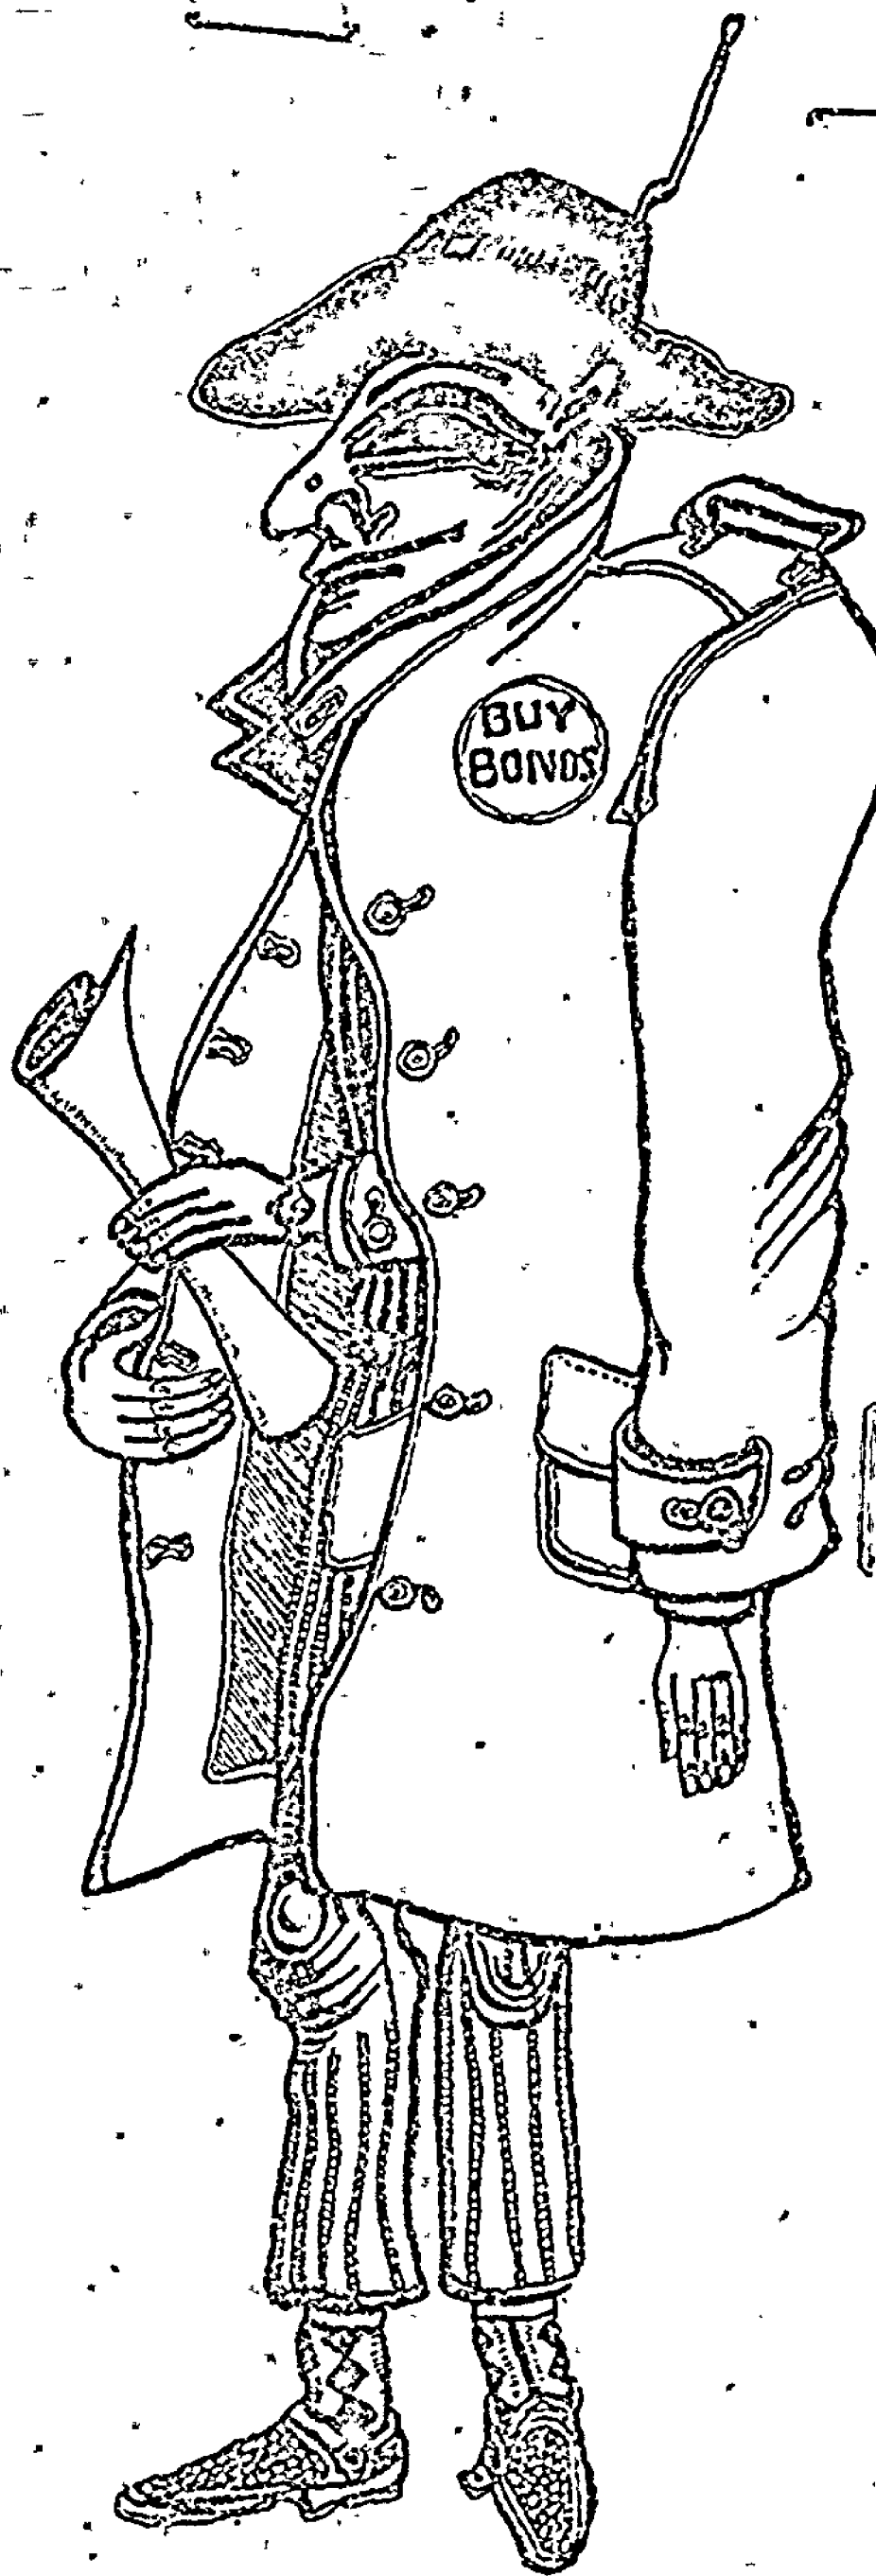

personalities of the contacting agent and volunteer to tell all -- perhaps on a continuing basis."

It is difficult to see how one "agent" can have several "personalities." And we don't think interrogations will "enhance" paranoia, for "enhance" means to "make attractive." The editor of New Left Notes probably meant "induce" paranoia.

Nevertheless, the meaning of the newsletter is crystal clear.

So don't go paranoid. You don't need to tell an FBI agent anything whatever, according to a special bulletin from Underground Press Service, although you can take a heavy rap for giving any government agent a lie. If "interviewed," it may be best to say you have nothing to say, and ignore those "overwhelming personalities."
